THREE MORE NOTES FROM GERMAN DELEGATION

TERMS MAY BE HANDED TO AUSTRIANS BEFORE THIS WEEK IS ENDED

Only Those States Which Declared War Upon or Broke Diplomatic Relations With Austria-Hungary to Be Represented at Conference

Paris, May 14.—(Havas).—Belief that the peace treaty with Austria would be handed to the delegates of that nation by the end of the present week was expressed to-day.

The Allied Powers to be represented at St. Germain in the negotiations with the Austrians will be less numerous than those at Versailles, comprising only the states which declared war upon or broke diplomatic relations with Austria-Hungary.

Paris, May 14.—(Havas).—One of the notes under consideration by the Council of Four is a note presented by Count von Brockdorff-Rantzau Tuesday night asking authorization for the sending of German officers to greet the Austrian peace delegation on its arrival at St. Germain. Press opinion is that the request will be denied.

Paris, May 14.—The note from Count von Brockdorff-Rantzau presented to the Council of Four last night was the one which had been forecast he would send relative to Austria, according to the English Press. It asks permission for the German delegation to send three of its members to greet the Austrian plenipotentiaries upon their arrival at St. Germain.

Food and Goods.—(Associated Press).—An American mission has been sent to the Ukraine by Captain Thomas Gregory, of the Inter-Allied Food Commission, to arrange for an exchange of Austrian manufactured goods for flour and potatoes for use here.

This would give the Austrians a chance to secure food in Europe instead of depending upon American importations, and they would be able to pay in kind for their necessities instead of relying upon United States credits. Commerce between the new states created out of the former empire also would be developed by similar means.

Soap and Medicines.—Captain Gregory has asked the American Red Cross to send soap and medicines to the Ukraine, where the need for these products is urgent owing to typhus fever and skin diseases. Captain Gregory has arranged for the shipment of 20,000 boxes from Jugoslavia to Vienna in spite of the chaotic conditions obtaining in trade.

SAYS PRODUCTION MUST BE GREATER

Premier Speaks of Provincial Finances; Greater Population Is Needed

Vancouver, May 14.—The financial difficulties that had confronted the Provincial Government and those which still faced it were outlined in an address given by Premier Oliver before the Board of Trade here last night. He told the meeting of the steps that had been taken in the past and also something of the policy of the Government with regard to the future development of the Province.

The sum of \$11,500,000 was proposed to be borrowed this year to carry out the extensive programme of the Government. Of this amount, the interest and sinking fund would amount to \$152,500. This big increase in expenditure, the Premier frankly told his audience, would result in increased taxation. In order to bear the increased taxation it was necessary to increase the production of the province, as well as its population. He stated that British Columbia was not the only place faced with increased taxation. The United States intended to resort to income increases in taxation. If the United States, which had been in the war only a year and a half, found it necessary to increase its taxes, what about Canada, asked the Premier.

Public Works.—Outlining the programme of the Government for the year, Premier Oliver said it was proposed to spend \$1,500,000 on public works. In this connection he declared that the land settlement policy of the Government was now bearing fruit. Thousands of settlers were pouring into the northern country, and he declared that the interests of Vancouver would be just as well served by roads opened up in the interior of the province as by motor roads in the vicinity of Vancouver.

There also was a sum of \$1,000,000 for conservation and land improvement, with an additional \$1,000,000 for the work of the Land Settlement Board. The reclamation of the Sumas Prairie was included in this and the speaker said that it would be known (Concluded on page 4.)

PILOTS PLANE ON ITS RECORD-BREAKING TRIP

LIEUT. JACK CLEMENCE.

WAS PASSENGER ON SENSATIONAL FLIGHT

LIEUT. H. S. GRAVES.

"Pathfinder" Makes Record of Forty-two Minutes for Victoria-Vancouver Flight

Time of taking off	12:17 p.m.
Time of start	12:25 p.m.
Time of landing	1:07 p.m.
Actual time of flight	42 minutes

Clipping twelve minutes off the record made by the Vancouver flyers on Monday evening, the aeroplane "Pathfinder" landed at Minoru Park at 1:07 o'clock this afternoon, after a flight for forty-two minutes from Victoria. A brief telegram was received by Lieut. Rideout, secretary of the local branch of the Aerial League, from the Terminal City flyers announcing the victory of the local pilot, Lieut. Jack Clemence.

This is a most remarkable flight. The passage was made at approximately seventy miles an hour. It is also a splendid tribute to the flying ability and condition of the "Pathfinder" and also to the skill of the pilot. Clemence has thrilled the people of Victoria with his remarkable stunts and has now put another feather in his cap by smashing the record for aerial navigation between this city and Vancouver.

According to the information received from Vancouver, Pathfinder was expected to leave on the return trip at 2 o'clock, after the flyers had been entertained at luncheon by the members of the Vancouver branch of the Aerial League. The plane more than likely will land at the Willows aerodrome about 4 o'clock, having completed the round trip in three hours and a half, which will emphasize very emphatically the practicability and advantages of commercial flying between the Island and Mainland.

The Start.—Taking off against a light northerly breeze "Pathfinder" left the willows aerodrome at 12:17 o'clock this afternoon bound for Vancouver with the first aerial mail to be carried between this Island and the Mainland before Clemence was in charge, and Lieut. H. S. Graves was flying as a passenger. The plane flew rapidly towards Elk Lake and making a circle over the city climbed rapidly to the top of the wireless station. It was several thousand feet up. After attaining a fair altitude Lieut. Graves left the wireless aerial and at once called up the

BORDEN AND SIFTON NOW ON WAY TO THE DOMINION FROM THE FRENCH CAPITAL

Paris, May 14.—(Reuters).—In view of the fact that the principles have been settled upon which peace is to be established, Sir Robert Borden and the Hon. Arthur Sifton left Paris this morning for London and will proceed to Canada on the first available ship. They have been absent from Canada more than six months, far beyond the period anticipated when Mr. Lloyd George called them to London last November.

The date at which the peace treaty eventually will be signed is a matter of conjecture, but questions of importance awaiting consideration in Canada necessitate Sir Robert's return.

As to the information or misinformation, we would draw your attention to the fact that the men who have returned undoubtedly are well informed. (Concluded on page 2.)

ARRIVES AT HALIFAX

Halifax, May 14.—Colonel R. M. Simpson, P.S.O., of Winnipeg, arrived here to-day on the S.S. Royal George.

FRANCES CHOOSES TWO MEMBERS OF LEAGUE OF NATIONS BODY

Paris, May 14.—Two French members of the League Nations' organization have been selected. Their names will be published shortly.

RETURNED MEN REPLY TO PREMIER OLIVER

Reiterate Request Provincial General Election Be Held in Near Future

Vancouver, May 14.—The reply of the Provincial Branch of the Great War Veterans' Association to Premier Oliver's recent statement made in answer to the demand of the association for the resignation of the Government, which was delayed because of the absence of the Premier, but which has now been given out, reiterates the assertion that the Government is out of touch with public opinion, and that it should resign. The text of the statement follows:

To the Hon. John Oliver, Premier of British Columbia.
Hon. Sir.—Referring to your statement that we do not speak as representatives of service organizations and returned soldiers, we do not understand on what you base your statement. In view of the fact that the Service Council of Victoria is representative of all the ex-service men in Victoria to the number of approximately 5,000 men; Provincial Army and Navy Veterans, 2,300; Provincial Great War Veterans (forty-two branches) with a membership of 5,000 men; Comrades of the Great War, 2,500; British Campaigners, 350, who represent campaigners of the Crime and subsequent campaigns.

As to the information or misinformation, we would draw your attention to the fact that the men who have returned undoubtedly are well informed. (Concluded on page 2.)

ARRIVES AT HALIFAX

Halifax, May 14.—Colonel R. M. Simpson, P.S.O., of Winnipeg, arrived here to-day on the S.S. Royal George.

FRANCES CHOOSES TWO MEMBERS OF LEAGUE OF NATIONS BODY

Paris, May 14.—Two French members of the League Nations' organization have been selected. Their names will be published shortly.

GERMAN AGENTS PROTEST AGAINST PRINCIPLES OF REPARATION TERMS BUT STATE COUNTRY WILL SETTLE

NOT PLANNING TO MOVE ON PETROGRAD

Allies Not Preparing at Helsingfors, Says Bonar Law; Ships There

London, May 14.—Questioned to-day in the House of Commons regarding the Stockholm report that the Entente Powers were preparing naval and military operations against Petrograd, Mr. Bonar Law, Government Leader in the Commons, said a British squadron had been at Helsingfors for a long time to meet whatever might arise, but "no definite proposal of the kind suggested is contemplated at this moment."

Vienna, May 13.—Via London, May 14.—(Associated Press).—Russian Bolshevik forces have met with new defeats by Ukrainian troops led by Simon Petlura. Zeleny, another peasant leader, is reported to have revolted against the government of Kiev, Tcherigov and Poltava.

The Government of West Ukraine has sent a mission to Italy to secure the release of prisoners held there, who, it is planned, will be sent to reinforce the army fighting against the Bolsheviks.

To See Lenin.—Paris, May 14.—Dr. Fritzot Nansen, head of the commission to feed Russia, has gone to that country to negotiate direct with Nikolai Lenin, the Bolshevik Premier, on the question of food relief and the cessation of fighting.

A dispatch from Paris last night stated that a message had been received from Tschitcherine, Bolshevik Foreign Minister of Russia, announcing the Bolshevik refusal to cease hostilities as a condition of the provisioning of Russia by neutral countries.

EX-GERMAN VESSEL BRINGING TROOPS TO UNITED STATES

Brest, May 14.—The steamship Kaiserin Augusta Victoria, one of the German steamships recently turned over to the United States, will sail for the United States this evening with 5,000 troops and 697 passengers.

EBERT SAID HE WOULD NOT RESIGN

German President on Sunday Uttered Wail About Treaty to Correspondent

New York, May 14.—Owing to almost unprecedented congestion of the trans-Atlantic cables, the following report of a statement made by President Ebert of Germany on Sunday to the Berlin correspondent of the Associated Press, has just reached the Associated Press office here:

Berlin, May 14.—Declaring that the terms of peace presented by the Allied and Associated Governments to Germany "contemplate the physical, moral and intellectual paralysis of the German people," that the Germans have been "hypnotized" by statements made by President Wilson, and that he himself is looking forward to the future "with the gravest apprehension," President Ebert said to-day that he still hoped that American democracy would not accept the treaty framed at the Peace Conference. He rejected with disdain the suggestion that the present German Government would resign rather than accept or reject the terms saying the Government would "hold out to the end."

Calis Terms Crushing.—"When, in the course of 2,000 years," he asked, "was ever a peace offered a defeated people which so completely annihilated its physical, moral and intellectual vitality as the terms enunciated at Versailles?"

The German people," President Ebert continued, "is only beginning to awaken from the hypnotic into which it has been lulled because of its solid faith in the sincerity and truthfulness of Mr. Wilson's programme and his fourteen points. The awakening will be complete." (Concluded on page 4.)

Another Note From Teutons Deals With Effect of Peace Terms on Economic Situation, and Another With President Wilson's Points

Paris, May 14.—Three notes from the German peace delegation were delivered to the Council of Four this morning. They are long, but the subjects discussed have not as yet been disclosed.

Paris, May 14.—The Three German notes delivered to the Council of Four this morning, the Havas Agency says, deal with the following subjects:

The first, with the effect of the peace terms upon Germany's economic situation; the second, with the manner in which President Wilson's points are applied, which is protested against, and the third, with the principles of the reparation demands, which are protested, although it is declared that Germany is prepared to subscribe to them.

Paris, May 14.—It is presumed that the German note which was reported to have been delivered last evening was taken up by the Council of Four at a session held this morning.

ST. JOHNS, NEWFOUNDLAND, IS OBJECTIVE OF U.S. DIRIGIBLE

Montauk Point, N.Y., May 14.—The American navy dirigible C-5 left here to-day on a flight to St. Johns, Nfld., which may be followed, if the coastal performance should prove satisfactory, by an attempt to fly across the Atlantic.

In command of Lieut. Commander Emory W. Coil, the C-5 took a northeast course, expected to carry her along the New England and Canadian coasts to St. Johns. There "lighter than air" experts await the dirigible, ready to assist in preparing her for a possible 2,000-mile non-stop cruise to the British Isles.

There was a possibility also, naval officers said, that the route of the N.C. seaplanes to the Azores might be followed, reducing the longest "jump" to approximately 1,300 miles by making a stop at Ponta del Gado.

Passed Chatham.—Chatham, Mass., May 14.—The dirigible C-5, flying 1,000 feet high, passed over the air station here at 10:05 a.m. The balloon was ascending as she disappeared over the course followed by the seaplane N.C.-4.

Weather Poor.—Trepassey, Nfld., May 14.—Weather conditions over the Atlantic to-day were not so propitious as were expected and the indications this afternoon were that the start of the American naval seaplanes on their trans-Atlantic flight until to-morrow.

N.C.-4 Files.—Chatham, Mass., May 14.—The American naval seaplane N.C.-4 left here at 9:25 a.m. to join the N.C.-3 at Trepassey, Nfld., the starting point for the trans-Atlantic flight. The N.C.-4 was to fly to-day to Halifax. Weather conditions were regarded as promising and hope was expressed by naval officials that the N.C.-4 would soon join her sister planes, the N.C.-3 and N.C.-1, at Trepassey Bay. While it was said the N.C.-4 would stop at Halifax and would not attempt to make the distance to Newfoundland in one flight, naval authorities said that if the engines should work properly Lieut. Commander A. C. Read might decide to resume his flight from there for Trepassey to-night.

Reached Seal Island.—Boston, May 14.—The N.C.-4 reported to the Navy Department here that she passed Seal Island, Maine, at 11:22 a.m. The message said that the machine was making eighty-five miles an hour.

Reached Halifax.—Halifax, May 14.—The American naval seaplane N.C.-4 arrived here at 2:10 p.m. Halifax time, from Chatham, Mass. Allowing for an hour's difference in time between this port and Chatham, the plane made the flight of approximately 300 nautical miles in three hours and forty-five minutes.

Hawker and Raynham.—St. John's, Nfld., May 14.—The British aviators, Hawker and Raynham, appeared unlikely to get away to-day on their rival trans-Atlantic flights. Reports were received of poor weather for a mid-day start.

GUILTY OF MANSLAUGHTER.

Toronto, May 14.—John Warren, who since February 27, when a motor car which he was driving struck and killed Miss Rose Wilcox, had been in custody awaiting trial on a charge of manslaughter, was found guilty here yesterday. Chief Justice Sir William Mulock deferred passing sentence.

PRISONERS ESCAPE AT EVERETT, WASH.

Seattle, May 15.—Advice received at the sheriff's office here said five prisoners had escaped their way through a steel barn of a cell in the county jail at Everett, Wash., early to-day and made their escape.

WOULD KEEP MAN OUT OF CANADA

Fellow Ship Passengers of Rev. Rahilly, Ireland, Urge He Be Barred

Halifax, May 14.—Heated argument on Irish affairs on board the steamship Royal George on the way from Liverpool to this port caused a number of Canadian officers to demand that Rev. Brother Thomas Rahilly, of Cork, Ireland, be not admitted to Canada. This morning when the ship docked officers protested against Brother Rahilly's presence in Canada and stated that he had rendered himself generally obnoxious throughout the trip. On one occasion, they said, in the heat of an argument in the smoking room, he announced that he was coming to Canada for the purpose of spreading Sinn Fein doctrines among the French-Canadian population. They also stated that he had openly refused to respect the customs associated with the singing of the National Anthem.

Private Business.—Brother Rahilly told the Canadian Press that he was coming to Canada by way of the United States on private business. He said that his business had nothing whatever to do with the spreading of Sinn Fein ideals. Brother Rahilly said he had founded schools in Montreal and elsewhere in Canada in 1911 at the earnest request of the French-Canadian population, who felt that there were not sufficient facilities in the country for the teaching of their children in the French language. He would visit these schools (Concluded on page 4.)

DOMINIONS' OUTLAY DURING THE WAR STATED IN LONDON

London, May 14.—(Reuters).—In the House of Commons, replying to Sir J. Norton Griffiths, Colonel Amory, Under-Secretary of the Colonial Office, said that the war expenditure in Canada was approximately £235,000,000; in Australia, £291,000,000; in New Zealand, £275,000,000; in South Africa, £23,000,000, and in Newfoundland, £2,500,000.

CHINESE DELEGATES ARE THREATENED

Violent Treatment Awaits Them in China If Shantung Given Up

Paris, May 14.—Messages threatening violence if they should sign the peace treaty have been received by the Chinese delegation from various parts of China. A dispatch sent by 35,000 citizens of Shantung province, dated Tsinan-Fu, May 11, says: "Regarding the Tsing-Tau problem, Japan shows contempt for public right and never ceases to be ambitious. The people of Shantung refuse to accept as effective such illegal demands. The traitors to our country, Tiao-Yu-Lin (Minister of Communications, whose house in Peking was burned), and Chang Tsung-Hsiang (Former Minister to Japan; who was severely beaten by Chinese) deserved death for the blow suffered by the Chinese people."

"Should you sign the Japanese proposal you must receive the same treatment upon returning to China. We cannot give ear to apologies. Do not fall us. We are much in earnest."

Ready For Action.

A message from the Chekiang Assembly dated Hangchow, May 10, and addressed to the Chinese peace delegates, says:

"The Assembly is extremely disappointed at hearing that the disposal of Tsing-Tau has been left to the discretion of Japan alone. All are prepared to do what the crisis demands, but are hoping that you will yet effect a change in the situation. If necessary withdraw from the Conference without signing the protocol. You can depend on the full moral support of the people at home."

Chinese colonies and associations in all parts of the world are showering the delegation with resolutions against signing the treaty. The tone of the messages is such that responsible delegates say it will be quite impossible to sign unless the delegation is given written assurance of the ultimate return of the Shantung political rights to China.

MRS. CAMPBELL SAYS SHE WANTS TO HELP OTHERS

From a Sense of Duty She Tells About Tanlac Restoring Her Health—Gains 17 Pounds

"I have always shrunk from publicity, but if it hadn't been for others allowing the news of their recovery published I would not have known about Tanlac, and would still be suffering, so I feel like I ought to be willing to make a statement myself and try to help others get relief." This statement was made by Mrs. Elma Campbell, residing at 2552 116th Avenue, Edmonton, recently. Mrs. Campbell not only has a wide circle of friends, in Edmonton, but she is also well known and popular in Wetaskiwin, where she resided for fifteen years.

"I have now taken three bottles of Tanlac," continued Mrs. Campbell, "and it is almost unbelievable the way it has helped me in this short time. Why I have already gained seventeen pounds in weight, and I don't think I ever felt better. I was by reading the testimonials that I found out about Tanlac, and if I had not tried it I would have always thought the statements were exaggerated, but now I don't doubt anything good I read or hear about it. I had been in a badly run-down condition for a year or more. I had no desire for food of any kind, and what little I did force myself to eat seemed to give me no nourishment and strength. I was very nervous and restless, would lay awake rolling and tossing until towards morning and then drop off into a very light sleep—just a dose. I simply had to force myself to do any work and when night came I was completely exhausted. Then the 'flu' epidemic came along, and I was taken down with that and left in a much worse condition than ever. I was constantly having headaches, and would often get so dizzy I could hardly stand up. These dizzy spells would sometimes come over me while on the streets—everything appeared to be spinning around—and I would have to stop for a time before I could continue on my way."

"I had also lost a great deal of weight, but by the time I finished my first bottle of Tanlac there was a decided improvement in my condition, and now, things are altogether different with me. I am always ready for my meals with a good appetite, and can eat just anything without the slightest trouble afterwards. I never have a sign of headache nor a dizzy spell, and my nerves are as steady as a clock. I sleep like a child at night, get up in the morning feeling rested and fine, and can do my work with ease. I owe my present good health to Tanlac, and I can't recommend it too highly."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas. Adv.

RETURNED MEN REPLY TO PREMIER OLIVER

(Continued from page 1.)

As to the state of affairs and the manner in which they freely express themselves on every occasion on which they are gathered together to discuss the matters which concern them leave no ground for doubt as to their feelings in the matter, and furthermore, it is obvious that the men who are returning from the trenches also are in touch with all that has transpired, as disclosed by the fact that they are joining the various returned soldiers' organizations we represent in hundreds per week.

We appreciate your statement "that a dissolution of the House and the election would prevent all those who had not returned at the date of the election from voting, and that it also would prevent all those who have already returned and whose names are not now on the voters' list from voting." We submit to you that a sincere Government, knowing these facts, might easily remedy this injustice by putting the necessary machinery in motion to enfranchise every man who has seen overseas service, by reason of that service.

Land Matters. Re the land policy—it is evident from your own action and the resultant dissatisfaction amongst returned men that your land policy is in no way satisfactory.

Referring to Chapter 56 of the "Public Lands Act," which you quote, we wish to state that at the rate of progress in preparing the land for the rehabilitation of the soldier these men will starve to death before the land is ready for occupation.

Housing Policy. Re the housing policy—You state "that this is purely a Dominion matter," and you assume "no responsibility therefor." We would point out for your information that the Government of the Manitoba Government in making immediate provision for loans without waiting until Federal legislation has overcome the various technicalities. A Government desirous of meeting this question could provide the money for immediate necessities.

Settlement Board. Re the Settlement Board—When the Land Settlement Board was formed in 1917 we had soldiers who, having done their duty at the front and having returned no longer fit for military service, but who were nevertheless well qualified from the point of intelligence and practical experience, and were sufficiently able from a physical standpoint to form such a Board, but the Government never gave them a chance. Granting your statements were correct, it does not in any manner of means preclude the possibility of a reconstruction of the Land Settlement Board at this time, and soldier representatives being placed thereon.

P. G. E. Affairs. Re P. G. E. campaign funds, to which you make references—We are

NO OPPORTUNITY TO SEE LLOYD GEORGE

Three Representatives of Irish Societies in States Are Denied

London, May 14.—It was learned last night in official quarters that Frank P. Walsh, Edward P. Dunne and Michael F. Ryan, representatives of Irish societies in the United States, who have been visiting Ireland, will not be received by Premier Lloyd George on their return to Paris, nor will they be accorded any official or semi-official recognition. According to a Reuter dispatch from Paris, Col. E. M. House, who had promised to endeavor to arrange an interview between the American delegates and the Prime Minister, has, in view of their activities in Ireland, decided not to act as an intermediary.

Mr. Dunne and Mr. Ryan reached London last night. Mr. Walsh is expected here to-day. Mr. Lloyd George has been subjected to much bitter attack for his alleged encouragement of the delegates' activities. Even a serious journal like The Spectator has gone so far as to assert that a "dangerous conspiracy" is afoot for committing the Prime Minister and the British Government to virtual recognition of the "Irish Republic." Other newspapers complain that the fact that the delegates have fraternized with Sinn Fein leaders has given the Sinn Fein movement new life. The question has been asked what would be thought if a British delegation should visit the United States on a mission of a like character.

WINNIPEG VETERANS STATE THEIR STAND

Army and Navy Veterans Denounce Bolshevism in All Its Forms

Winnipeg, May 14.—Keenly resenting what were described as pro-Bolshevik and pro-Spartan resolutions passed by the Trades and Labor Council of Calgary, the Winnipeg branch of the Army and Navy Veterans' Association last night unanimously went on record as being absolutely against Bolshevism in all its phases, declared that the Trades and Labor Council of Winnipeg did not represent true democracy, and urged that all publications which advocated Bolshevism be suppressed immediately, that the printers and publishers of the same be deported and that it be made a criminal offence to be in possession of such literature.

The position of many returned men now unable to re-establish themselves in business because of financial embarrassments which developed while they were fighting for their country was discussed and a resolution was unanimously passed demanding that the Federal Government grant the money that would enable them to re-engage in business.

One speaker stated that 10,000 copies of The Socialist Bulletin containing a letter from Lenin, the Russian Bolshevik leader, had been published that day by the Allied Trades and Labor Council of Winnipeg. Re-

READY TO ENFORCE A STRICT BLOCKADE

Allies Preparing Measures For Use Should Germany Refuse to Sign

NINE MENNONITES IN MANITOBA SENTENCED

Winnipeg, May 14.—Mennonites of the old school in the vicinity of Winkler are still resisting the school authorities and withholding their children from the public school, and another batch of nine were summoned before Magistrate Milne. A fine of \$20 and costs was imposed on each of the offenders. Two of the number paid their fines, while the other seven declared they would prefer imprisonment to paying the fine.

During the hearing it developed that John Eisen, bishop of the colony, had advised his people to send their children to the public school. Both the pastor and the teacher asked for an interpreter.

SILVER MINERS WORK IN EAST BRITISH COLUMBIA

Calgary, May 14.—The rapid rise in silver prices has awakened active interest in the large silver deposits in Eastern British Columbia, just over the Alberta border, and prospectors in Calgary are getting under way to re-open old locations and file on new ones.

Valuable claims have been lying idle for years, and immense activity is predicted on these claims in the near future.

READY TO ENFORCE A STRICT BLOCKADE

Allies Preparing Measures For Use Should Germany Refuse to Sign

Paris, May 14.—The Supreme Economic Council yesterday considered economic measures that may be taken against Germany in case her delegates should refuse to sign the peace treaty. The project which has been prepared having in view the re-establishment of a strict blockade will be handed over to the Council of Four for eventual application.

The Economic Council has decided to maintain a strict blockade of Hungary so long as the political situation there remains uncertain.

The Council of Four yesterday afternoon discussed the Turkish and Asian Minor questions and certain details of the Austrian treaty. American experts were called in for consultation on the subject of Austria.

Some delegates who had taken part in recent conferences said last evening that the Italian delegates no longer were insisting upon the fulfillment of the secret Treaty of London and that this part of the controversy relative to territory on the Eastern shores of the Adriatic was tending toward an adjustment. The status of Fiume, still was being discussed, as the plan to make it a free city similar to Danzig had not proved acceptable.

Paris May 14.—The feeding of the Russian population is no solution to the Russian problem, it is declared in a memorandum sent to the peace conference by Prince Lvoff, Sergius Sezonoff and President Tschalkovsky head of the North Russian Government, concerning the proposal to feed Soviet Russia through neutral countries on condition that the Bolsheviks cease hostilities. The memorandum says:

"The Allies wish to assist the Russian people and to reduce the starvation brought about by the Bolshevik regime. This cannot fail to awaken deep feelings of gratitude. Nevertheless, the signers of the declaration consider that the realization of this generous thought, will have a contrary result unless efficient measures are taken to prevent the Bolshevik authorities from interfering with the revivification of Russia. To bring about this result, the Allies would be of use only to the protectors of the Bolshevik regime and help to prolong their domination."

The task which the Russian national movement must fulfill is to liberate Russia from the yoke of those who have reduced her to her present state of impotence and to the necessity of relying upon foreign countries for her food. The feeding of the famished population is no solution to the Russian question. Consequently the struggle to liberate Russia from her oppressors and to give Russia a Government of her own choosing cannot be stopped for any reason whatever. The signers of this declaration wish to state that Russia will pay for the food provided for her, but they hope that the Allies will refuse to give the Bolsheviks the right to dispose of Russia's patrimony."

CALGARY LABOR AND ONE BIG UNION

Calgary, May 14.—Local Laborers unanimously turned down a proposal to form a Labor Party last night. The meeting was called at the order of the Alberta Federation of Labor convention but very little support was given, most of those present being of the One Big Union opinion, favoring direct action.

MORE LAND FOR SOLDIER FARMERS

Dominion Lands Held By Aliens in Default Will Be Taken

Ottawa, May 14.—Dominion lands held under homestead entry by aliens and others whose duties are in default will be checked by the Dominion Land Agents and action taken to make them available for soldier settlement. This action is the result of conferences between the Department of Interior and the Soldier Settlement Board. It also has been decided to check up land held under temporary reservations which might now be discontinued. The Soldier Settlement Board will take steps at once to enlist the co-operation of municipalities in ascertaining from local sources information concerning such lands.

FRENCH CASUALTIES IN AIR OPERATIONS

Paris, May 14.—The casualties in the French air service in the war zone during the war were 6,320, it was officially announced yesterday. The casualties were as follows: Killed, 1,945; wounded, 2,923; missing, 1,451. Of the missing, it was stated 700 must be considered to have lost their lives.

Outside the war zone, the casualties totalled 1,237, bringing the aggregate for the whole air service to 7,555.

Was Troubled With BOILS FOR SIX MONTHS

From the days of Job to the present time, boils have been one of the greatest afflictions of the human race. Very few people escape from having them at some time. All the poulticing and lancing you may do won't cure them and stop more coming.

Boils are caused by bad blood bursting out, and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters is the greatest blood purifier known. It cleanses the system, and purifies the blood by removing every particle of foul material from the system, and when this is done, never another boil comes and health and strength are permanently restored.

Mr. C. H. Bridges, 470 Barton St. E., Hamilton, Ont., writes: "I was troubled with boils for about six months and tried several remedies without any relief until I tried Burdock Blood Bitters, and the effect has been wonderful. After using two bottles I was rid of them all. I feel like a new man; my appetite is better, and I sleep better than I have for years. I can highly recommend B. B. B. to all who are troubled as I was."

Burdock Blood Bitters has been on the market for the past forty years, and manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

IN THE SPRING-TIME

fore his ills become serious. During a hard winter or the following spring one feels rundown, tired out, weak and nervous. Probably you have suffered from cold or influenza which has left you thin, weak and pale. This is the time to put your system in order. It is the time for house-cleaning.

A good, old-fashioned alterative and temperance tonic is one made of wild roots and barks without the use of alcohol, and called Dr. Pierce's Golden Medical Discovery, in tablet or liquid form. This is nature's tonic which restores the tone of the stomach, activity of the liver and steadiness to the nerves, strengthening the whole system. Send Dr. Pierce, Buffalo, N. Y., 10c for trial package Tablets.

NY one knows enough to carry an umbrella, when it rains, but the wise one is he who carries one when it is only cloudy. Any one will send for a doctor when he gets bedfast, but the wiser one is he who adopts proper measures be-

Windsor, Ont.—"Dr. Pierce's Golden Medical Discovery and his Pleasant Pellets" are wonderful medicines for home use. I used to suffer with weak lungs, smothering spells and sick-headaches; but since I have taken the above mentioned medicines these conditions have left me. "Such medicines as Dr. Pierce's are worthy of praise."—Mrs. Ellen Harding, 11 Erie Street, West.

WAR APPROPRIATION BILL IS PASSED

By Ottawa Commons; Government Will Need Additional Borrowing Powers

Ottawa, May 14.—Third reading was given to the war appropriation Bill in the Commons yesterday afternoon. Sir Thomas White's resolution on which the prohibition legislation will be based was passed, and several hours were spent in considering Public Works Department estimates.

In connection with the third reading of the War Appropriation Bill, Sir Thomas White announced that additional borrowing powers probably would be sought, because only \$200,000,000 could be borrowed under this bill. This was because the Government had over-borrowed under previous War Appropriation measures.

The allowance by Ontario of the sale of native wines proved to be one of the contentions in connection with the consideration of the resolution to extend the Order-in-Council relative to prohibition for another year, with certain modifications in recognition of provincial temperance enactments.

Hume Cronyn, London, moved an amendment which, had it been adopted, would have placed native wines in Ontario in the same class as other intoxicants.

Sir Thomas White explained that the principle underlying the bill is the recognition of provincial rights.

Major G. W. Andrews, Winnipeg Centre, was opposed to prohibition, declaring that the tormented world was

EX-GERMAN CANNON ARRIVE AT MONTREAL

Montreal, May 14.—The steamship Vendella has brought an interesting and historic cargo into port here, consisting of a score of captured guns which were wrested from the Germans by Canadian troops. Among the heavy artillery is a big gun which is labelled: "Second Canadian Division, 24th Battalion, No. 930," and this is consigned to Montreal.

No. 978 is for the 21st Canadian Battalion, and it is addressed to the Lieutenant-Governor of Ontario.

No. 960 was captured by the 31st Battalion, a Western unit, in August last, and it is consigned to the Lieutenant-Governor of Alberta.

No. 925 is the property of the 25th Battalion, of Nova Scotia.

There are other pieces.

Paris, May 14.—The French Government is assisting in the creation in neutral countries of numerous commissions to facilitate the growth of French export trade. Etienne Clement, Minister of Commerce, has announced that a national bank for foreign commerce will be created to handle long-term credits and to encourage French merchants and manufacturers in the world-wide sale of their products.

MACKENZIE KING GOES TO BRITAIN

Ottawa, May 14.—Hon. W. L. Mackenzie King, Minister of Justice, left for the United Kingdom. Mr. King will spend two months across the Atlantic studying industrial reconstruction problems in the United Kingdom and the continent. He will supplement the studies made in connection with the writing of his recent book "Industry and Humanity," and will make a personal investigation of the working out of the Whitley Council system and of the programme enunciated by the British Labor Party. He has been in touch in an advisory capacity with various trades in Britain in connection with labor legislation, and will confer further with them, while in London.

FIGHTING FOREST FIRES IN MINNESOTA

Two Harbors, Minn., May 14.—Twenty forest rangers and sixty section men employed by the Duluth & Iron Range Railway Company are fighting forest fires near Embarras. It was reported by officials of the company that after a four-hour fight the fire was under control.

Another fire is raging in the Dunke River region, but its size could not be ascertained.

The Embarras fire is more than a mile wide, with a great deal of depth in some places. The woods are very dry through lack of rain, fuggers report, and fires find a great quantity of fuel in cut-over districts.

BERLIN REJECTS.

The German Government's rejection of the peace terms decided by the Paris Conference is preliminary to the submission of counter-proposals and, therefore, was expected. To submit its own case, and thus endeavor to obtain the best possible bargain, the Government evidently considers it necessary to proclaim its refusal of the conditions which come from Versailles.

In its method of doing this, however, the Berlin Government is resorting to a very familiar practice. It is appealing over the head of the Paris Conference, to the peoples of the Allied countries, trying to excite sympathy on one hand and to stimulate civil discord on the other. The speech of Chancellor Scheidemann to the German Assembly yesterday was very transparently a performance of this kind. And it was characteristic of Scheidemann himself and the Prussian junker element, whose tool he has been for at least four years and probably longer.

Scheidemann's picture of Germany as the victim of the atrocious imperialism of her adversaries, as the innocent, persecuted lamb whom they are bent upon destroying, is so strikingly like the productions of the former Kaiser, von Bethmann-Hollweg and Michaelis, that it almost might have been drawn by one of them. Certainly if the Hohenzollerns and their associates were still in power in Germany the utterance of the Chancellor is precisely what we would have read as coming from them.

After all, what else could be expected from Scheidemann, or President Ebert, or any other member of the present German Government? They were the leaders of the Majority Socialists in the Reichstag during the war. They were the willing instruments of the Prussian war junta in the debauching of the German people. Not once did they open their mouths in criticism of the policy of Potsdam, or the manner in which that policy was carried out. The devilish atrocities of German forces on land and sea, the campaign of extermination and of enslavement, elicited from them no protest, even though these were publicly proclaimed and applauded in the pan-German press and in the Reichstag.

On the contrary, those leaders of Germany's so-called Social-Democrat party not only used their influence with the German masses to rivet them more strongly to Prussian militarism, but they became an important part of the machine operated by the Great General Staff. They, who now invoke the pity of international Socialists, intrigued and schemed to stir those same Socialists into hostile action against their Governments, in the hope of bringing about anarchy and rule for all. They were the agents of those precious attempts to hold conferences at Stockholm, the headquarters of the Bolshevik conspiracy, with the object of undermining the power of the Allies.

They, who had been the chief promoters of the International Socialist Congress in Brussels a short time before the war, never offered a breath of criticism when Belgian Socialists were torn from their families and driven into slavery in Germany. Still true to their junker affiliations they have not demanded an accounting from a single author of the monstrous wrongs perpetrated by Germany in the last five years. Not a single high-placed assassin has been brought to trial, and the only legal inquiry instituted by them has resulted in whitewashing the murderers of Captain Fryatt.

The Allies, representing the greater part of the world outside the Germanic combination, are not in the mood to argue with Germany. They argued and pleaded with her in July, 1914, and asked her to submit any peaceful proposal she could think of to avert war. They are determined that henceforth she shall not be in a position to repeat her attempt to gain supremacy by arms, to vindicate the Bismarck policy of blood and iron, to strike right and left without regard to the character of her victim.

Germany has shown herself to be unworthy of trust, to be completely bankrupt in morality. Judging her by her Government and by its complacent attitude to the fendish gang with whom the members of that Government were so intimately connected, she has not shown that she has altered in anything but in name, that the habit of thought of many years, and the policy of aggrandizement by force, of trickery and intrigue, have been discarded. Germany must accept the terms under which she will have to make reparation for her wrongdoing and insure Europe and the world against the blight of Prussian militarism. That acceptance will involve the retirement of the Scheidemann Government, but this will be necessary if Prussian junkerism is to be finally extinguished.

PUBLIC HEALTH AT STAKE.

Not only in Canada, but throughout the civilized world the masses have trained their varied organizations against aggressive monopolistic influences and invariably some success has been achieved. The average monopoly, however, has been tolerated in the hope that by peaceful evolution the condition which permits the exploiter to thrive to-day will become gradually unfeasible. There are some monopolies, nevertheless, which strike deeper than others and call for prompt treatment; this is the case where the public health is concerned.

The Times referred in its news columns yesterday to circumstances which surround the manufacture of a certain remedy for venereal disease, in connection with which there is a suggestion of a

particularly unsavory kind of monopoly. The Toronto Board of Health applied some time ago to the Commissioner of Patents for permission to manufacture this special class of antidote with the sole object of reducing the cost of treatment by its use. The application was denied because no proof had been shown that the process to be employed would do what was expected of it or show that the present sole manufacturers were marketing the stuff at other than a fair price. Still persistent, however, the Board is experimenting to enable its assertion to be demonstrated. Support has been given by the British Columbia Board in its determination to obtain for victims of such diseases in this Province a treatment at a cost that will, at least, assist the application of the law passed at the recent session of the Legislature.

If there are voices whispering in any department of the public service at Ottawa loud enough to penetrate the official mind and perpetuate any monopoly of this nature they should be still by prompt action.

NOW FOR DOUGLAS FIR.

At a complimentary luncheon given in his honor at Vancouver yesterday, Sir James Ball, Timber Controller for the British Empire, predicted a great future for Douglas fir. In fact he believes it will eventually replace the American yellow pine in the British markets. But the reason why Douglas fir has not yet asserted its apparently merited claim is due to the fact that—with one exception—British Columbia mills have not pressed this variety hitherto.

Sir James told the luncheon company that he was not a politician but just a plain business man trying to apply the principles of common sense to the problems now demanding solution. This is just the sort of sentiment that might be expected from one of a number of experts who were loaned to the British Government at the outbreak of war because of their outstanding ability unalloyed to party. And his prophecy for the future of Douglas fir, therefore, should be heeded by British Columbia mills as a straight "tip" from one who knows.

Vancouver Island and the coast mainland timber areas would appear to offer tremendous opportunities for the further development of this class of business and it may be taken for granted that before Sir James leaves the city on Sunday some plan of campaign will have been decided upon. In any case British Columbia mills would do well to take notice that a Seattle concern has just received an order from Europe for 151,000,000 feet of Douglas fir which is said to be the first of a "series of similar contracts" to be placed across the border "for reconstruction work in the devastated areas."

The case for co-operation between all sections of the lumber business in British Columbia is now more insistent than ever, and we have reason to believe that the success which attended the spruce "drive" can be repeated in business arising out of the needs of peace time.

ASTONISHING THE NATIVES

Those little wars which have broken out from time to time on the northwest frontier of India have not usually enticed the war correspondent. As a rule the spectacular dispatch has been reduced to a very small announcement from the Indian Office. Fighting hill tribes—marksmen to a man—shielded behind rocky boulders, often at dizzy heights, is a vastly different business from a cavalry charge into a host of Derwishes. Nevertheless, not one half of the hardship experienced in a frontier "row" has ever been told.

Times have changed, however, and those dusky gentlemen who thrive on the pinpricks that can be administered to British rule in India will discover to their discomfort that the mountain fastnesses are no longer effective shield against modern engines of war. Although the present display of savagism on the part of the intrepid Afghan is but a few days old, Monday's dispatch chronicled the fact that British aeroplanes had crossed the frontier and had bombed the enemy positions with good effect. Unless Nurullah Khan likes aeroplanes more than the late Amir liked railways, the sooner he calls the "Meerap" off the better it will be for him.

HALF A HUNDRED SHIPS

It is small wonder that the Foundation Company should feel proud of the achievements on the Pacific Coast. When the Montcalm slid to her element on Monday afternoon she marked the fiftieth launching successfully carried out in Pacific waters. Of that number forty were built at Tacoma and out of the ten constructed in the Victoria yards five went to the order of the Imperial Munitions Board, while the Montcalm is the fifth completed hull for the French Government. Further, if there is any particular degree of perfection in the launching process, Monday's ceremony reached it. There was a precision about the business which told of work well done.

But even a most cursory inspection of the Foundation Company's plant leaves an impression on the lay mind at once suggestive of an organization of the highest efficiency; and there is an obvious pride demonstrated by the workers which not only makes for a high-class product, but produces a spirit throughout this hive of industry which assures harmony between employer and employee. Moreover, while congratulating the company on the success of its undertakings at this port we trust that completion of the present contract will not be a signal for the cessation of its operations in Victoria.

TRADES UNIONISM GROWS.

Figures which are being prepared in the Department of Labor for the eighth annual report on labor organization in Canada, covering the year 1918, shows considerable increase in trade union membership in Canada. The increase in 1918 was 44,257, bringing the reported membership to 445,237, comprised in 2,774 branch unions, an increase of 308. Of the total trade union membership in the Dominion, 301,422 are connected with 1,187 local branches of international organizations, an increase of 24,536 members and 195 branches for the year. 37,700 are affiliated with 322 branches of non-international bodies, an increase of 5,055 members and 21 branches, and 2,432 are members of independent unions, a gain of 1,134 members over the year 1917.

SAYS PRODUCTION MUST BE GREATER

(Continued from page 1.)

When the report of the engineer was received in a week or two whether this work would or would not be done. The programme of the Government was largely experimental and he did not know what it was going to bring in the way of dollars and cents. However, the Province had the natural wealth and the question was whether it could be developed and made to pay. "We have to get more people here," said the Premier, "and more products." The time had come when the Province was faced with the necessity of making the supreme effort to get over the hill or else slip back. There was the possibility of losing a lot of money on these experiments but it would be to the Province's gain.

Housing and Railway.
In the future programme of the Government was included also the amount of \$1,500,000 for soldiers' housing. There was another \$1,500,000 for construction on the Pacific Great Eastern, which had to be continued and on which a considerable amount of work would be done before the fall. The Premier said he had just returned from a trip over the line and was sorry to report that it would be necessary to abandon some sections of the railway and find a new route. It would mean that the ultimate cost of the construction of the line would be very much more than at first anticipated.

Another item in the proposed expenditure was the amount of \$2,000,000 for industrial development in this Province.

Clear Statement.
At the outset of his address the Premier stated that he wanted to avoid anything in the nature of a party policy and give the members a clear statement of the Government's situation. In 1914 the net debt of the Province was \$1,712,000, and in 1918 it was \$2,000,000, and in 1917 over \$2,000,000. In the year 1914 the public accounts amount to take care of interest and sinking fund had been \$125,000, but in 1917 it was \$1,000,000. The Government had been out annually the sum of \$1,125,000 as interest on money invested in the Pacific Great Eastern. In 1914 the interest had been \$1,125,000, and in 1917 it was \$1,125,000. The expenditure was \$1,125,000. In March, 1918, the income of the Government was about \$8,000,000, while its expenditure was about \$8,000,000. This was the smallest deficit for a number of years and it included several payments of capital account. He announced that the Government had been able to reduce the deficit for the year 1918 to \$1,125,000. The Premier pointed out that the expenditure of the Government in 1914 had been \$1,125,000, and in 1917 it had been \$1,125,000. The Government had been out annually the sum of \$1,125,000 as interest on money invested in the Pacific Great Eastern. In 1914 the interest had been \$1,125,000, and in 1917 it was \$1,125,000. The expenditure was \$1,125,000. In March, 1918, the income of the Government was about \$8,000,000, while its expenditure was about \$8,000,000. This was the smallest deficit for a number of years and it included several payments of capital account. He announced that the Government had been able to reduce the deficit for the year 1918 to \$1,125,000.

Bonded Indebtedness.
In touching upon the bonded indebtedness of the Province the Premier said that in March, 1917, the bonded indebtedness had been over \$25,000,000, on which the sinking fund and interest was \$2,340,000, leaving a net indebtedness of \$22,660,000. In the following year the bonded indebtedness had been reduced to \$22,660,000 and the sinking fund was \$2,340,000. This month showed that the bonded indebtedness for the Province was \$22,660,000, the sinking fund and interest about \$2,340,000. This left a net debt of \$20,320,000, and in addition a floating debt of \$2,100,000.

Civil Service.
The Premier also referred to the civil service salary list in March, 1918, which amounted to \$1,125,000, and in 1915 it had been reduced to \$1,125,000, or a reduction of over \$200,000. However, it was not fair to expect that the men on the civil service should work for less in 1918 than in 1915. The Government was being hampered continually to increase the civil service salaries and the Civil Service Commissioner at the time he was going through the list. The Government had to fulfill its pledges to the men who had enlisted from the service to make up the difference between their salaries and what they were as well as to replace them on their return.

Source of Revenue.
Premier Oliver touched upon the source of revenue at the disposal of the Government. In the four years the revenue had been largely secured through the sale of capital assets. In 1912 and 1913 the revenue was \$12,000,000, and he said that forty per cent of this was from the sale of capital assets. The Government was not receiving this same percentage now. The Premier said that he was going to try to get the revenue up to \$12,000,000, and he said that forty per cent of this was from the sale of capital assets.

At the conclusion of the Premier's address a vote of thanks was passed on motion of H. O. Bell-Irvine and seconded by Captain Nicholas. The meeting endorsed the resolution from the nation's citizens asking the Government to take steps to increase the export of raw salmon from British Columbia in order to protect the local canneries against the Puget Sound canneries.

A resolution brought forward by C. E. Thibault was carried asking the Provincial Government to have a survey made of the road to Woodwards Landing, giving access to the Delta, and build a similar road to the Port Coquitlam district.

FARMERS IN ONTARIO WANT LOWER TARIFF
Brantford, Ont., May 14.—Following a recent meeting here to oppose any increase in the tariff on agricultural products, the Farmers' Union of Ontario, a large meeting of farmers of Brant County was held, at which the tariff was discussed. E. J. Murray, vice-president of the United Farmers of Ontario, the meeting was strongly in favor of tariff reduction.

TROOPS AT MONTREAL

Montreal, May 14.—The Dominion liner Cassandra, with Toronto, Kingston, Hamilton, Ottawa and Western troops on board, docked here this morning.

The Cassandra carried 1,500 troops, mostly from the Third, Fourth, Ninth, and Tenth Divisions, and some from the Princess Patricia's.

BRITISH WOMEN TO WORK IN DOMINIONS

London, May 14.—(Reuter's).—The Government Overseas Settlement Committee will send six women commissioners to the Dominions—two to visit Canada, two to Australia and two to New Zealand. They purpose to inquire into openings for women, particularly workers on the land, with a view to settling in the Dominions women workers desiring to emigrate.

BADEN-POWELL AT WASHINGTON MEETING

Washington, May 14.—General Sir Robert Baden-Powell, founder of the Boy Scouts, and Lady Baden-Powell, were special guests to-day at a meeting here of the National Council of Girl Scouts, at which plans were made for strengthening the Girl Scout organization in the United States.

EBERT SAID HE WOULD NOT RESIGN

(Continued from page 1.)

be terrifying and we all look forward to it with the gravest apprehension. In the face of the cold, naked realities we still consciously cling to the faith which found its expression in the names of Wilson and the United States and the conception of the democracy of the League of Nations. We cannot believe that this has all been an illusion and that the confidence and hopes of a whole people have been duped in a manner unknown to history. Even now the cynicisms are saying "Wilson will not permit it; he dare not possibly permit it."

Pan-Germans.
The President added that he and his party could not blame the Pan-Germans for "the immediate haste with which they are now digging up their former speeches and editorials in which the Social Democrats and other Liberals were ridiculed for their belief in President Wilson's programme."

"I and my colleagues," he said in conclusion, "upon whom rests the terrible burden of the forthcoming election, have no doubt that the German people, who staked all on President Wilson and the United States, shall not find themselves deceived."

More "Kultur."
"Notwithstanding the night now covering it, I have abiding faith in the future of the German people and in the unquenchable nature of its soul. This people, which has given the world so much in science, learning and industry, must not go down to oblivion. It still has a cultural mission to perform and a historic task to accomplish."

President Ebert closed his statement by declaring the present Government would "hold out to the last," and repeated the idea that it would "make peace with others to accept or reject a treaty."

WOULD KEEP MAN OUT OF CANADA

(Continued from page 1.)

on his present trip, and if he felt that the situation warranted it would endeavor to extend their scope and usefulness.

Brother Rabbity stated that he had shown no disrespect during the singing of the National Anthem. He had stood with the others on one occasion, and on another had left the room before the opening measures of the hymn. What he had stated in private conversation during the voyage was public property in Ireland.

His Idea.
Asked concerning the general situation in Ireland, Brother Rabbity stated that the Sinn Fein party, representing seventy-five per cent of the population, demanded independence for Ireland, that was all. He thought that with every country in the world being given the opportunity to develop its own existence, Ireland should not be left in the cold.

"Seventy-six per cent of the population of Ireland are Catholics," said Brother Rabbity. "They have to walk between barriers of fixed bayonets when they wish to go anywhere. I would prefer not being a slave. As for the Sinn Fein party, it is nothing more than the old Nationalist Party under a new name."

MAJ. F. E. GROSVENOR BACK IN CANADA

Halifax, May 14.—Major the Hon. F. E. Grosvenor, D. S. O. and Bar, M. C. and Bar, Croix de Guerre, of Vancouver, arrived here to-day on the troopship Royal George. Major Grosvenor was overseas as a subaltern in the 25th Battalion. He was wounded in 1917, mentioned in dispatches four times and for a year and a half acted as brigade major of the Sixth Brigade. At the time the armistice was signed, Major Grosvenor was Acting Assistant General Staff Officer of the 4th Canadian Division.

CASSANDRA LANDS

Montreal, May 14.—The Dominion liner Cassandra, with Toronto, Kingston, Hamilton, Ottawa and Western troops on board, docked here this morning.

FARMERS IN ONTARIO WANT LOWER TARIFF

Brantford, Ont., May 14.—Following a recent meeting here to oppose any increase in the tariff on agricultural products, the Farmers' Union of Ontario, a large meeting of farmers of Brant County was held, at which the tariff was discussed. E. J. Murray, vice-president of the United Farmers of Ontario, the meeting was strongly in favor of tariff reduction.

TROOPS AT MONTREAL

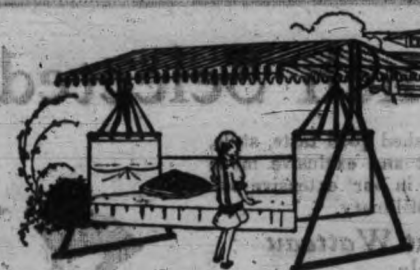

Montreal, May 14.—The Dominion liner Cassandra, with Toronto, Kingston, Hamilton, Ottawa and Western troops on board, docked here this morning.

BRITISH WOMEN TO WORK IN DOMINIONS

London, May 14.—(Reuter's).—The Government Overseas Settlement Committee will send six women commissioners to the Dominions—two to visit Canada, two to Australia and two to New Zealand. They purpose to inquire into openings for women, particularly workers on the land, with a view to settling in the Dominions women workers desiring to emigrate.

BADEN-POWELL AT WASHINGTON MEETING

Washington, May 14.—General Sir Robert Baden-Powell, founder of the Boy Scouts, and Lady Baden-Powell, were special guests to-day at a meeting here of the National Council of Girl Scouts, at which plans were made for strengthening the Girl Scout organization in the United States.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, May 14, 1894.

At the Council Meeting to-night the question of compulsory closing of barber shops and confectionary stores on Sundays will come up for discussion.

President Van Horne, of the Canadian Pacific Railway, and party are in the city. Mr. Van Horne reports farming prospects good in the Northwest. The party includes T. G. Sheehy.

The schooner Triumph, flying the flag of F. B. Marvin & Co., and commanded by Captain Clarence Cox, arrived home yesterday. She had a catch of 3,200 skins.

POLISH-UKRAINIAN ARMISTICE IS MADE

Paris, May 14.—The Poles and Ukrainians have reached an agreement to cease fighting.

The agreement for an armistice seems to be based on a belief that the Poles will assist the Ukrainians in opposing the Bolsheviks, but the agreement between the two parties is restricted merely to an agreement to stop fighting.

BOLSHEVIK GUNBOAT SUNK BY ALLIES

Archangel, May 12.—One Bolshevik gunboat is reported to have been sunk in the Dwina River on Sunday during an engagement between the British river flotilla and land batteries and the enemy fleet. The Allied flotilla, aided by aeroplanes, also conducted a brisk bombardment along the Vaga River.

A BEDTIME STORY

Uncle Wiggly and Bunty's Carriage

Copyright, 1918, by McClure Newspaper Syndicate.
(By Howard R. Garis.)

"Oh, Uncle Wiggly, Uncle Wiggly," called a jolly little voice one day outside the hollow stump bungalow, where Mr. Longears, the rabbit gentleman, lived with Nurse Jane Pussy Wuzzly, the muskrat lady housekeeper.

"Hail! I wonder if that's Sammie or Billie Buntytail?" asked Uncle Wiggly, as he turned a leaf of the cabbage newspaper he was reading.

"That's Baby Bunty," said Nurse Jane. "I guess she wants you to take her for a ride in her little red carriage. I see she has it out in front."

"Oh, I can't play with Baby Bunty today!" said Uncle Wiggly quickly. "I must go over and call on Grandfather Goosey Gander."

"Baby Bunty will be so disappointed," spoke Nurse Jane.

"It's too bad," agreed Mr. Longears. "But I must have a little rest and quiet. Baby Bunty is so lively!"

"Well, she keeps you that way, too," said the muskrat lady. "And, on the whole, perhaps it is a good thing for you. I believe you have become younger these last two weeks."

"Hum!" said Uncle Wiggly, non-committal like and unconvinced. "Anyhow I can't play with Baby Bunty this morning."

And when he told this to the little rabbit girl, whom he had found in a hollow stump, she said:

"Oh, dear! Then I'll have to go off in the woods by myself and pick wild flowers. But will you play with me some other time, Uncle Wiggly, and chase me and have a game of tag and all that?"

"Yes," promised Uncle Wiggly, as he got on his tail silk hat and looked to see if his pink nose was twinkling properly. "I'll play with you later."

So he went one way through the woods, and Baby Bunty went another, pushing her carriage, in which she often used to be wheeled when she was smaller than she was now.

"Don't get lost!" said Uncle Wiggly, as he waved his paw to the little rabbit girl.

"I'll try not to," she said.

Uncle Wiggly had a nice visit with his old friend, Grandfather Goosey Gander. They talked about the time when they were young and spry.

"But I'm getting old and stiff now," said Uncle Wiggly.

"You need some one to keep you

lively," quipped Grandpa Goosey. "Oh, I have come one!" laughed Mr. Longears. "You should see Baby Bunty! Say, now I think of it, come on back to my hollow stump bungalow and stay to lunch. I'll show you Baby Bunty—if she's home. But she's nearly always out in the woods, hopping around. She started off with her carriage just before I came here. Perhaps she went to get some oat to give her a ride, say I had no time. Come and see Baby Bunty."

"I will!" promised Grandfather Goosey Gander.

Together he and Uncle Wiggly went through the woods. But they had not traveled very far before, all at once, Grandpa Goosey cried:

"Look there, Uncle Wiggly! What's that rolling down the hill in front of us? It looks like a baby carriage!"

"Right!" cried Mr. Longears, as he peered through his spectacles. "It's Baby Bunty's carriage, and it's running away down hill. Oh, she's been hurt! I must hop after that carriage and stop it!"

"You never can catch that carriage!" quipped Grandpa Goosey. "It's rolling down hill too fast! You are so old and stiff, like myself!"

"Am I old and stiff?" cried Uncle Wiggly. "You just watch me hop!"

He jammed his tail silk hat down on his head, took a tight hold of his red, white and blue striped rheumatism scratcher, and down the hill he leaped.

Farther and farther rolled Baby Bunty's carriage! Farther and farther hopped Uncle Wiggly, his coat-tails streaming out behind like two girls' hair ribbons.

"I'll save you, Bunty! I'll save you!" cried the rabbit gentleman. Don't jump out of the carriage. I'll get you! I can hop fast, even if I am stiff!"

With one big, extra long hop he reached the carriage, and caught hold of it in his paws just as it was going to tip over. He looked inside, thinking to see Baby Bunty half frightened out of her eye-teeth, but instead, there was only a big bouquet of wild flowers.

"Well! Well! What does this mean?" asked Uncle Wiggly, all out of breath, but still not stiff any more.

"What is all this?"

"Oh, Uncle Wiggly!" cried Baby Bunty, from the top of the hill, where she stood with Grandpa Goosey. "Did

you think I was in that runaway carriage?"

"I certainly did!" answered Mr. Longears.

"Why, I wasn't at all!" laughed Baby Bunty. "I just used it to hold the wild flowers I picked. And when I wheeled it to the top of the hill it slipped away from me, and ran down. My! but you did run fast, Uncle Wiggly!"

"I should say he did!" quipped Grandpa Goosey. "Faster than ever I saw him hop before."

"But it's good for his rheumatism," spoke Baby Bunty.

Mr. Longears never said a word as he wheeled the carriage up the hill. But if the ice cream doesn't melt when the gas stove asks it to dance the fox trot, I'll tell you next about Uncle Wiggly and Bunty's party.

Social Personal

James A. Irvine, of Nanaimo, is in the city.

Thomas F. Dobbin, of Montreal, is staying at the Empress Hotel.

A. McDonald, M. P. F., of Clifton, is a guest at the Dominion Hotel.

Mrs. M. E. Vaughan, of Shanghai, is an arrival at the Dominion Hotel.

Mr. and Mrs. W. O. Leigh, of Seattle, arrived at the Empress Hotel yesterday.

Engineer Lieut. H. J. Napier-Henry, Royal Canadian Navy, is in the city from Halifax, N. S.

Graduates for the year 1919 at the University of British Columbia include Norah Wallace, of Victoria.

Mrs. F. Baby and Miss Maude V. Baby have returned to the city after a few days with her parents, Mr. and Mrs. David Spencer, Moss Street.

Mrs. G. G. McGeer returned to Vancouver on Monday after spending a few days with her parents, Mr. and Mrs. David Spencer, Moss Street.

Miss Hazel Conacher, of the staff of the Canadian Bank of Commerce, returned to her duties this morning after spending a vacation at Metchesin as the guest of Mrs. Helgesen.

Mr. and Mrs. J. H. Warren, of Toronto, spent a few days in Vancouver on their way to Victoria to see their daughter, Miss Imogene Warren, who is training at the Jubilee Hospital.

David Davis, of Cape Town, South Africa, accompanied by Mrs. Davis and the Misses Davis, who have been spending the past year in Victoria left for their home in Cape Town, South Africa, where they intend to make their home in future.

Mrs. C. E. Renouf, of San Francisco, Cal., has arrived in Victoria to await the arrival of her son who is returning with the Canadian Artillery. Mrs. Renouf is the guest of Mrs. Richard Nash, Pemberton Road, during her stay in Victoria.

Nursing Sister G. U. Carvolth has resigned her commission with the C. A. M. C. owing to her approaching marriage, and, with her mother, Mrs. E. J. Carvolth, of Chilliwack, is staying with Mr. and Mrs. John Sampson, "Pendarvis," Cadboro Bay.

Lieut. Fred. W. Bramley-Jubb, son of Mrs. Bramley-Jubb, 1038 Chamberlain Street, has returned home after four years' service overseas. Leaving with the 30th Battalion in February, 1915, the young soldier was assigned to duty at the Canadian headquarters in London, where he served for three years, then resigned to go to France with the Canadian Engineers.

To-night at the Empress Hotel the James Bay Athletic Club will cast off its role of sporting organization and for the nonce assume the garb of hosts at a dance to be held in aid of the club funds. One of the most popular of the athletic clubs of the city, the announcement of its dance has attracted a large number of the younger set and the big demand for tickets suggests that the beautiful ball-room will be filled with a merry crowd. Professor Lou Turner's orchestra will furnish the attractive dance music.

Lieut. P. O'Brien, R.A.F., will visit the city shortly. He was in this city late in 1918 and early in the following year left for Toronto, where he obtained a pilot's certificate, and proceeded to England, later going to France. He was shot down in a fight and made a prisoner of war, later succeeding in escaping and returning to England. Lieut. O'Brien is on a trip to Canada.

Active preparations are being carried on by the Victoria and District Teachers' Association to ensure the success of their first public dance, to be held at the Alexandra Club on Friday evening.

Dancing will be from nine till one o'clock and it is announced that dress will be informal. A good orchestra has been engaged and supper will be served in the downstairs cafe, under the direction of a committee of the teachers. Tickets for the event may be obtained of any of the members of the association.

Mrs. L. A. Walker and her little daughter returned to Vancouver during the week-end after spending the past few weeks as the guest of her mother, Mrs. Grace Davenport, Hampton Court. They were accompanied by Mr. Walker, who came over from the Mainland last week.

WHERE IGNORANCE IS BLISS.

CITY LOOKING ABOUT FOR POSSIBLE MONIES

Will Try to Get Contribution Towards Bridge Expenses From Dominion

Confident that they will be able to place an expenditure by-law before the ratepayers before the end of the summer, the civic authorities are at present busy getting the Johnson Street bridge plans into shape, and looking about for possible sources of money for the new viaduct.

As it would be impossible for the C. N. R. under the present plan to establish terminals on the east of the Upper Harbor it is understood probable that that railway will not contribute anything toward the construction of the bridge. It is pointed out by the civic authorities, however, that the National Railways' terminals will not be further away from the business section than the present Esquimalt & Nanaimo freight terminals.

So far the Provincial Government has offered to contribute \$200,000 towards the construction of the bridge, while the C. P. R. has indicated its willingness to put up \$100,000. As the total cost according to the latest estimate would be approximately \$550,000, the city would be left to raise \$250,000. It is hoped, however, that the Dominion Government might be persuaded to make a contribution as the new C. N. R. terminals on the Reserve will require adequate connection with the city.

The B. C. Electric Railway Company, however, has intimated that it did not propose to help in the payment of the bridge costs. The company at one time did undertake to contribute \$50,000 at the time when it showed its intention to use the new structure. At present Mayor Porter understands the company would not desire to lay tracks on the bridge. It would cost \$250,000, the civic authorities are given to understand, to make the changes in the trackage system involved in the laying of a new route to Victoria West via Johnson Street. It is therefore thought improbable that cars will run by this route immediately upon its construction, or that the transportation company will contribute towards the establishment of the new line.

The C. P. R. officials, during several conferences which have taken place in the last few days, have intimated upon Mayor Porter that a temporary bridge be constructed at this time. A temporary bridge, they state, could be installed for about \$60,000. It is their contention that only a permanent structure should be erected when the cost of materials decreases. The people of Victoria, they consider, would be more likely to vote a small appropriation than a large one, and they fear that if the ratepayers are faced with an expenditure of some \$250,000 they would decide not to have a new bridge. Mayor Porter contends, however, that the citizens of Victoria feel that they have waited long enough for a new bridge which, when built, should be substantial and a permanent institution.

Speaking of the progress made in the last few days toward the construction of the bridge, Mayor Porter remarked this morning: "When the plans have been completed and formally approved by all parties concerned—as a matter of fact, they are being drawn up to suit the wishes of all—and as soon as we have interviewed the B. C. Electric Company on their possible contribution, and the Dominion Government, we shall be in a position to prepare a by-law. We will make the best bargain possible and then leave the question in the hands of the people. Before the summer is over, I am sure, the ratepayers will be given an opportunity to vote on the problem."

NO WORD OF RETIREMENT

Military District Officials Have Heard Nothing About Lieut.-Col. Moore Leaving.

Military district officials desire to state that no information has been received here relative to the report emanating from Vancouver that Lieut.-Col. Moore, Assistant-Adjutant-General, would shortly retire from that position.

HIGHLY SATISFIED AT PROSPECTS FOR PROVINCE'S LUMBER

Mr. Pattullo Returns to City and Predicts Northern Mining Boom

Although not able to discuss in detail plans which may be evolved by the lumbermen of British Columbia as a result of a conference with Sir James Ball, Timber Controller of the British Empire, the Hon. T. D. Pattullo, Minister of Lands, who returned to the Parliament Buildings this morning, declared himself to be highly satisfied with the prospects for a wider market for the forest products of the Province.

Mr. Pattullo says emphatically that it will now be necessary for the industry itself to recognize the need for a more intimate acquaintance with export methods and once that has been accomplished and plans laid accordingly his information leads him to believe that plenty of business may be obtained by the mills of British Columbia. The Minister is well pleased with his conferences with Sir James and with Mr. Meyer, the British timber purchaser.

Sees Mining Activity.
Mr. Pattullo returns to Victoria highly optimistic about conditions in the north. And speaking of the silver strike in the neighborhood of Stewart, he declares that in point of richness the discovery is almost beyond comprehension. So much has this impressed itself upon the Government that a road is now being constructed to connect Stewart with Hyder, in order that better access to the mines can be provided and the business arising from the activity kept on the Canadian side.

Hyder is within the Alaskan boundary and, owing to the topography of the country, American territory must be traversed in order to reach the mines. Moreover, the nature of the road work now being undertaken may be better understood when it is remarked that for this one mile of new road, \$30,000 is the cost involved.

A big rush is expected, and the Minister believes a considerable boom is imminent throughout the mining districts of the north country. Mr. Pattullo was accompanied by Frank Mobley, member for Atlin, in his tour of the northern and coast industrial section.

PATHFINDER MAKES RECORD OF FORTY-TWO MINUTES FOR VICTORIA-VANCOUVER FLIGHT

(Continued from page 1)
lent. The northerly breeze was dying rapidly when "Pathfinder" took off. The clouds were low, which prevented the plane from climbing into high altitudes. The temperature, however, was fair and Pilot Clemence reported the visibility good when he took the plane up for a test flight this morning.

It was the intention of Pilot Clemence to following the east coast of the Spanish Peninsula to Sidney, then cut across the southeast corner of Salt Spring Island and sent a direct course to Active Pass. From there the "Pathfinder" would fly to Point Roberts, sixteen miles across the Gulf of Georgia and on to Minoru Park, the aerodrome of the Vancouver Aerial League.

Both the flyers were well rigged out with clothing for the trip. Capt. Eckley reported extreme cold in the high altitudes on his return to Vancouver, and the local boys were determined to remain high as long as possible. They also carried life-belts as a precautionary measure, in case of a cold dip into the Gulf.

The "Pathfinder" carried a large number of letters from various organizations here to similar organizations in Vancouver. Everyone expressed the hope that before long aerial communication between this city and the Mainland would be a commonplace and daily occurrence.

Carried The Times.
The "Pathfinder" also carried a copy of yesterday's Times for delivery in Vancouver; this being the first paper to be carried in the history of commercial flying in Canada.

Premier's Letter.

The following letter was sent from

An Oxo Cube to a Cup

With OXO CUBES a delicious cupful of hot OXO can be ready in a few minutes. Just stir a cube in a cupful of hot water.

Tins 10c. & 25c.

Premier John Oliver to Sir Charles H. Tupper, K. C.

"It is a great pleasure to me to initiate correspondence with you by the novel means of the aerial service, now in its early stages as between the Capital City and Vancouver. Let me express the hope that we both shall live long enough to see this beginning of things in the matter of aerial communication become an established means of rapid progress, and, indeed, a commonplace occurrence."

"The practicability of aero service in numerous forms was demonstrated so completely during the war that rapid adaptation to peace conditions and the ordinary needs of commercial and social life may be expected."

"The Aerial League of Canada is doing a creditable service in keeping this matter before the attention of the people, and I have no doubt that a sense of the importance of this new development will be aroused in the public mind."

"Let me thank the bearer of this message for his courtesy in carrying it to you, with my best wishes for your continued health and prosperity."

President of Canadian Club.

John Cochran, president of the Canadian Club, sent the following letter to Christopher Spencer, president of the Canadian Club in Vancouver:

"We are now standing upon the threshold of an era of development in aerial navigation, the ultimate achievements of which no man may foretell. Taking advantage of the opportunity kindly afforded through the courtesy of Flight Lieutenants Clemence and Graves, who are leaving Victoria this morning to return to the friendly visit so successfully made to Victoria on Monday by Capt. Eckley and Dull of the Vancouver Branch of Aerial League, on behalf of the Canadian Club of Victoria, I send greetings herewith to the executive and members of the Canadian Club of Vancouver."

"It is just possible that the time is not far distant when the presidents of both of these clubs will be sending wireless messages into the clouds to intercept prospective guests as they fly across our skies from London and Montreal to Yokohama and Hong Kong or vice versa."

Aerial Mail.

Postmaster H. P. Bishop sent the following letter to Postmaster Macpherson, of Vancouver, and it is the first time that any aerial mail has passed between postmasters in Canada:

"I take this opportunity of extending to you hearty greetings on the occasion of the first exchange of correspondence between the post offices of Vancouver and Victoria by aerial service."

"I trust that this will be the precursor of future swift mail services that will still further promote the business enterprise and cordial relationships existing between our fair cities."

From Board of Trade.
J. O. Cameron, President of the Victoria Board of Trade, sent the following letter to A. G. McCandless, President, Vancouver Board of Trade:

"This message will be delivered to you by the hand of Mr. J. Clemence, one of the pilots of the Aerial League of Canada, who is departing from Victoria for your city at about 11 a.m. to-day."

"I send you greetings from the Victoria Board of Trade and hope soon to see the time when communications between our cities through the medium of the aeroplanes will be a common, everyday occurrence. With best wishes."

The managing editor of The Daily Times sent the following letter to John Nelson, of The Vancouver World, in reply to the one delivered by Capt. Eckley:

"Through the courtesy of the Victoria branch of the Aerial League of Canada The Times is able to acknowledge, by aerial route, your letter of

COL. PECK EXPECTED IN VICTORIA TO-DAY

V. C. Hero to Be Warmly Welcomed By Former Comrades

Lieut.-Col. Cyrus W. Peck, V.C., O.C. of the 16th Battalion, was due to arrive in Victoria on this afternoon's boat from Vancouver, and was to be welcomed at the wharf by a large gathering of citizens and former men of the 16th and 30th Battalions. Members of the party were Capt. P. R. M. Wallis, Lieut. J. H. Gallon, C. M. Stone, Sergt. C. Campbell, Ptes. Padden, P. Oliver, W. J. Anderson, C. Kersey, F. O. Hamilton and H. A. Charlton.

The journey to the Public Library would be like a triumphal procession, many citizens being assembled along Government and Yates Streets to welcome the returning officer. At the library the Mayor and Aldermen were assembled on the steps and Mayor Porter had ready the following illuminated address of welcome on behalf of the citizens of Victoria:

"Upon the occasion of your return to British Columbia, the Mayor, the Corporation and the citizens of Victoria desire to place on record their highest appreciation of the services performed by you while serving with the Canadian Expeditionary Forces."

"It gives us much gratification and pleasure to have again in our midst one who has won the highest honor that the Empire could confer upon him, viz., the Victoria Cross, and we extend to you a hearty welcome on your return home after four years of splendid service, and wish you and your family many years filled with peace and prosperity."

The reception committee for the 16th and 30th Battalions comprised Sergt.-Maj. Birch, M. M. F. A. Abrahams, A. Little, D. G. Holmes and T. A. Darke, honorary secretary.

Arrangements have been completed for a big banquet at the Empress Hotel to-morrow evening by the members of the 16th and 30th Battalions. Dinner will commence at 8 o'clock.

Golf Club Thief Sentenced.—Charged with the theft of a number of golf clubs from the Esquimalt Golf Club House, Douglas Walsh was sentenced to one month's hard labor by Magistrate Jay in the Esquimalt Police Court this morning. The court room was crowded with golf enthusiasts, present to identify their property. Chief of the Esquimalt Police Palmer was able to recover fifteen clubs and two golf bags.

103rd OFFICERS BACK IN VICTORIA

LIEUT. COL. MENNIKER

who has returned to Victoria. Colonel Menniker was O. C. of the 103rd Battalion, which he organized on leaving the 20th B. C. Horse. He took the 103rd Battalion to England, where it was used to reinforce units in the fighting line. He served in various capacities in France, including that of commander of a camp area, and was later transferred to England suffering from the effects of gas. The Colonel, however, recovered sufficiently to be able to carry on his duties.

Major Spurgin, who went away as second in command of the 103rd Battalion, has also returned to Victoria during the last few days, and with Major W. Pemberton, who was in command of A Company, is taking an interest in the reunion gathering which will be discussed at the meeting to which all members of the Battalion are invited at the Belmont Building on Friday night.

To Gordon Highlanders—All the old original members of the 20th Gordon Highlanders, who have any Highland uniform in their possession, are requested to turn it into the Q. M. Store at the Drill Hall before Tuesday night. This is required for the inspection of uniforms and the reorganization of the regiment.

Wen Premiums—The following premiums for pamphlets dropped from the clouds by the Currier plane on Wednesday, May 14, at W. J. Pendrey & Sons, Ltd. have been recovered: George Squighar, Princess Avenue 55; Mrs. Cullen, 3189 Fifth Street, 75; G. Smith, 1312 Arm Street, 51, and B. Jackson, 2452 Harriet Road, 51.

Exempt Church Property—As announced in last week's issue of The Times, Mayor Porter, empowered to act by the Council, has decided that the land covered by the Roman Catholic Church will be exempt from the forthcoming tax sale. No other churches are in the position of the Cathedral, which owes a large aggregate of delinquent taxes. If the legislation resulting from the writ filed recently by the church authorities goes against the city it will mean a loss to the corporation of a large sum of money for church lands would be exempt from taxation.

When in need of a purgative, do not resort to violent cathartics, but take the gentle, natural laxative—

making their call to attend to such matters and then going on to another case.

Not a Charity.

Their services are often called in for patients, returning home after hospital treatment, but the nurses of the Order never undertake hospital nursing. These institutions not coming within their sphere, it should be clearly understood that the Order is not a charity organization, as so many people seem to think. Every one is expected to pay a fee for each nursing visit, but the fees have been kept as low as possible, and are compatible with the attention given. Every nurse in the Order is a graduate nurse and has, in addition, received a special course of training in public health work.

Maternity Work.

Maternity cases their nurses have proved of inestimable value to the prospective mother of modern means, who is unable to attend large sums of money on pre-natal treatment, yet is anxious that her offspring come into the world under the best circumstances. Many of the most hardy and healthy children of Victoria, who are the subject of admiring comment from visitors, the women ever, and their entry into the world under the efficient auspices of the nurses of the Victoria branch, Miss McNair, the head nurse, and her assistants, Miss Norcross and Miss Chisholm, 120, has been one of the special features undertaken by the Victoria nurses, many a mother in the Order on the care of their children, whether of the infant or the school girl age. This is pre-eminently a work lying within the province of the Order, and is one which the local nurses hope to be able to extend when funds are available.

Motor Car Needed.

The nature of the work which places the nurses at the beck and call of a large section of the community and necessitates their covering a wide field in the course of their duties has made the need of a car imperative if they are to give really efficient service. In an endeavor to raise funds to purchase an automobile for use in their work, the Victoria branch will hold a tag day on Saturday next, to which it is hoped the public will subscribe with its usual generosity.

GUERRILLA WARFARE

DECLARED ON THE

CATERPILAR PEST

Civic Authorities Have Started Campaign to Secure Partial Relief

Guerrilla warfare was finally declared by the civic authorities this morning upon the caterpillar infestation.

For weeks the Mayor and aldermen held the view that the insect invasion threatened to be so extensive that any measures to cope with it would be hopeless. Numerous protests against this apocalyptic attitude were received, however, and members of the Council began to feel that something ought to be done. Various plans, such as the calling out of the Fire Department to destroy the masses of the caterpillars, were each disposed of, and the authorities were at a loss to know what to do.

After several conferences on the question with Parks Superintendent Purdy, Mayor Porter was able to announce this morning, however, that the work of combatting the pest had actually commenced. The campaign will be nothing less than an attempt to eradicate the insects entirely from the city's property, and no extra men will be employed to take part in the crusade.

The men who are at present employed in caring for the boulevards will be sent to the attack, but only in their spare time, when other tasks are not pressing. The branches of the trees infested by insects will be cut off and burned.

The chief objective of the drive will be to keep the boulevards clear, but it will be impossible to cope with the wide infestation of the city parks. The chief difficulty expected in the spathy of the public toward the campaign, with the result that the caterpillars will swarm from private property on to the boulevards and the city's property.

Again, caterpillars are infesting branches so high up on the larger trees that it is impossible to reach them.

It is noted with satisfaction by the Parks Superintendent that the parasite, which it is said, will ultimately prove the doom of the caterpillar, has appeared much earlier this year than last. It also stated that another parasite, not observed a year ago, is attacking the pest.

It has been suggested to the City Council that a spraying machine to deal with the insects be secured, but it is felt by the aldermen that such an investment would not be worth while this year.

HAD WEAK and FAINTING SPELLS.

Those feelings of faintness, those weak, all gone sinking sensations, which come over some people from time to time, are warnings that must not be overlooked.

They mean an extremely weakened condition of the heart and a disordered nervous system.

When the system is in this condition there is no time for delay. One fainting spell may be recovered from, but the next may be more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills before their case becomes less, before the heart becomes less, before the nerves become less.

They will act directly on the disordered heart and weakened nervous system and restore them to full strength and vigor.

Mrs. Mary McGee, Algoma, Mich., writes: "I was awfully troubled with fainting and weak spells, and I could never get any doctor's medicines to help me. One day a friend of mine was at the house when I took one of these pills, and she got me a box of Milburn's Heart and Nerve Pills. That was six years ago, and from that day to this I have never had any of those spells. I would not be without your pills for any money, and can highly recommend them to any one."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

NORDHEIMER
Apartment Upright

THE purchase of a Nordheimer Piano is not a speculation—it is a sound investment. Nordheimer's 79 years of leadership—supplying the best pianos to the best families of Canada—provide your sure guarantee of satisfaction.

The wonderful instrument known as the "Nordheimer Apartment Upright" possesses a tone so rich and beautiful that all who hear it marvel at such musical quality in so compact a case. While its production cost is in the piano action and mechanism rather than in unnecessary case ornamentation, the Apartment Upright is nevertheless an ornament to any home—it has that simplicity which is the truest form of art.

In the Nordheimer Instruments, greatest refinement and purity of tone are secured— utmost durability embodied— greatest prestige achieved.

"The name 'Nordheimer,' backed by this piano's guarantee, eliminates all risk and safeguards your entire investment."

Romano—Henry Krauss in "A Vagabond of France," and Pearl White serial, "The Lightning Raider."

ROYAL VICTORIA

Douglas MacLean is again the leading man for dainty Enid Bennett in "Happy Though Married," her latest Paramount picture from the Thomas H. Ince studio, which will be shown at the Royal Victoria Theatre for the last time to-night. Mr. MacLean combines the qualities of personal attractiveness and good acting with youth and good looks. He is, therefore, an ideal juvenile and ideally suited to play opposite Miss Bennett.

fortune from a mine in South America. His love for Milly Lee (Miss Bennett) leads to marriage and a series of unfortunate situations which however come out as one would wish in the end.

Vola Vale, a pretty girl who has appeared in important parts with Paramount and Arcturion stars, has the role of a Spanish girl in "Happy Though Married." Miss Vale is dark and big-eyed. She is just the type for a Spanish senorita, with coy mania and fan, and the art of flirtation at her dainty fingertips.

Hal Cooley, Philo McCullough, Lydia Teasdale and others complete the cast of this new picture. All are well-known artists of the screen and in their respective roles all do splendid work. Mr. Cooley plays the role of brother of Douglas MacLean, hero of the story. Mr. McCullough is the meddlesome friend and Lydia Teasdale is well cast as an elderly aunt.

Charlie Chaplin in "A Jitney Elopement" is also seen on the same programme.

DOMINION

A modern feminine Dr. Jekyll and Mr. Hyde, who substitutes the two famous characteristics of manliness and criminality with the livery and toll of a hotel maid by day and by night with the beauty and lavish gown of a social presence, loved and sought by a society of romances, is the mystery role played by Anita Stewart in "A Midnight Romance," the second of her series of new special feature productions to be shown at the Dominion Theatre all week.

As Marie, the maid, whose soft, tender hands with long, tapering fingers, and the police of a girl born to command, which she tries hard to conceal, combine to belie her drab servant's livery, Miss Stewart has a difficult characterization to enact. Mystery which was suggested by Marian Orth and directed by Miss Lois Weber.

The romance which early becomes a factor in her routine life as a hotel employee compels her to avoid discovery by young Roger Sloan, while she is occupied as the maid in their hotel suite, for fear of losing his affection for her. To him she is a midnight phantom of the beach and hotel gardens. There she meets him frequently at the mystery hour, beautiful and captivating in her wonderful gowns. And then, when two society plotters seek to victimize Sloan, her double role of maid by day and lady of mystery by night becomes more difficult.

The final complications and situations in the production contain a series of surprising developments, with the final denouement withheld until the closing scenes.

VARIETY

A feature of Miss Lois Weber's fascinating production, "For Husbands Only," which is the photodramatic attraction at the Varieties this week, is the appearance in many scenes of the Denis-Shawn dancers, the advanced pupils of Ruth St. Denis and Ted Shawn. The settings in which they dance are among the most exquisite ever shown on the screen.

The story, like many of those which have come from Miss Weber's studio, is remarkably unlike anything that heretofore has been pictured on the screen. In fact, the story as planned by the feminine master of cinema craft is so unusual that even the cleverest student of screen drama will find himself baffled in his efforts to anticipate the climax of the play until the final scene is presented.

ROMANO

"A beautiful singing picture," is how "A Vagabond of France" has been characterized by Frances Rosetti, kin of the distinguished poet and painter. This screen version of Jean Richepin's immortal poem, in which Henri Krauss, the famous French actor, appears, will be shown at the Romano to-day for the last time. Krauss, well recalled among picture lovers as having created the part of Jean Valjean in "Les Misérables," the very first super-feature in multiple reels ever produced and which, for twelve years, has remained a model of fine classic film production.

Another thrilling episode of the latest Pearl White serial, "The Lightning Raider," will also be shown.

COLUMBIA

Olive Thomas gave spectators a real thrill, especially the owner of a large limousine she was driving, when she crashed through a fence in front of the Triangle Culver City studios. The only one who seemed pleased with the accident was her director, Jack Dillon, for it all happened during the filming of the latest Triangle release, "Limousine Life," and was called for in the script. The cameraman who was registering the accident had to do a leap for his second later, for Miss Thomas failed to check the heavy car in the allotted space and crashed over the spot where the camera man had been standing. Both camera and operator escaped injury.

"Limousine Life," presenting Olive Thomas in the stellar role, is the feature photodrama at the Columbia to-day with an episode of the "Vagabond of France" serial. "The Woman in the Web" as an added attraction.

PANTAGES

B. D. Berg's "The College Girl Frolics," which headlines this week's Pantages show is a lively up-to-the-minute, girl-and-music revue in which four natty principals are starred. Several scenes in and around a young women's seminary and original lyrics and music to fit the tableaux, are features of the entertainment. Termini and Klass present a musical two-act with pep and novelty to it. The pair are gifted entertainers who never fail to "get across" to any audiences before which they work. Charles Sparks and company offer a Willard Mack vaudeville playlet entitled, "A Friendly Rival" which presents with a laughable veracity all the idiosyncrasies of a couple of aged Irishmen.

WANTED: KEATING'S POWDER.

VICTORIA WOMEN TO MAINLAND CONVENTION

Women's Independent Political Association Sends Delegates to Discuss Living Costs

The committee appointed by the Women's Independent Political Association to take steps towards arousing the interest of the women of the province in the matter of lowering the present cost of living gave its report last night at an extraordinary meeting of the Association called for this specific purpose. The meeting was held in the Victoria Club with Mrs. Willcroft, the President, in the chair. Mrs. Grant reporting on behalf of the committee recapitulated the measures taken to enlist the co-operation of the women of Vancouver, New Westminster, Nanaimo and Duncan. As a result of their "house-to-house" convention of women of the province is being held in Vancouver to-day, at which a plan of campaign will be discussed, with a view to bringing the matter before the attention of the Dominion Government. The committee's report gave rise to considerable discussion, and was finally adopted, and a vote of appreciation passed to the members for their work. Mrs. James Johnston and Willcroft were elected delegates to represent the Association at this afternoon's conference in Vancouver.

At the regular meeting to be held in the Victoria Club on Friday afternoon at 2.30 these delegates will report on the convention, and the meeting will also discuss plans for the holding of a mass meeting in Victoria at an early date.

Stops Bronchitis Quickly Without Any Medicine

This Problem Solved When Catarrhazone Was Discovered

Thousands Have Been Cured

You are nothing but a plain simple boob to suffer a day longer from Bronchitis. It's real easy to cure—this has been proved time and again. Relief comes at once when you breathe in the soothing vapor of Catarrhazone. Once its healing, plucky essence strikes the inflamed throat, you realize that a powerful treatment is at work.

Irritation can't live in the throat of a person inhaling Catarrhazone. It is so soothing, so warming, so full of concentrated healing power that you get results at once. Catarrhazone strengthens the weak throat, stops the cough, removes the hacking irritating necessity to clear the throat, makes even the chronic sufferer realize that at last he has discovered a real cure for cough, colds, catarrh, and winter like nothing in the family could be better than the complete dollar outfit. Small trial size 25c. all dealers, or The Catarrhazone Co., Kingston, Ont.

ENJOYABLE AFFAIR

Women's Auxiliary to G. W. V. A. Entertained at Successful Social and Dance Last Night.

Under the auspices of the Women's Auxiliary to the G. W. V. A. a delightful social and dance was held in the club rooms, Fort Street last night. The hall was lavishly decorated with flowers and bunting, forming a pretty setting for the affair.

The following popular artists contributed selections to the programme: Solos, Mrs. Anstey, Miss Ida Taylor, Miss Sparks, Mr. Guy, Mr. Sparks, numerous recitations; violin and piano selection, the Masters Mays; Persian dance, Miss Queenie Ball, assisted by the Misses Berenice Ruddock and Yvonne Thanet, as fanbearers. Miss Jean Taylor and Mrs. Anstey played the piano accompaniments for the soloists and A. Tait presided as chairman.

A pleasing feature of the evening was the presentation to Mrs. Hine on behalf of the members and executive of the G. W. V. A. of a beautiful bouquet of scarlet carnations as a token of appreciation of her handiwork in the handsome banner of the parent association. Much of the success of the evening was due to the efforts of the energetic committees under the following conveners: Mrs. Hine and Mrs. F. W. Hall, the president, superintended the general arrangements; Mrs. Gussie, refreshments; Mrs. Hatcher, decorations; and Mrs. Hune presided at the door.

Girls' Corner Club.—A large attendance of members and friends is expected on Thursday to welcome Mrs. F. L. Neth, who is visiting the city. She will attend the Corner Club tea at 4.15 in the Odd Fellows' Hall to-morrow and on Friday will address women in that hall at 3 p. m., after which afternoon tea will be served.

CHAPTER HEARS PLEA FOR INDIAN CHILDREN

Lady Douglas Chapter Votes \$100 to Scholarship Scheme For Soldiers' Dependents

An appeal for the sympathy of the women in the cause of the Indian children at Alert Bay was made to the members of the Lady Douglas Chapter, I. O. D. E. at the regular meeting held in the headquarters yesterday afternoon.

Indian Child-Wives
 Miss Nixon, of the mission school at Alert Bay, gave a moving story of the lot of the Indian girls, many of whom were married at ten years of age and had more than one "husband" before they reached the age at which the average white girl left school. She pleaded with the women to bend their efforts towards obtaining legislation calling for legal marriages for Indians, declaring that without the support of the law the missionaries were powerless to prevent the barter in girls which went on, and in which "bad" white men were largely instrumental. Miss Nixon pointed out that the mission workers were anxious to help the Indian girls and boys after they left school, but as matters were at present were unable to wield any influence while the law permitted such things as described above to take their course. The members expressed their sympathy with any movement tending to the betterment of conditions among the Indians, and Mrs. J. D. Gordon moved that the chapter obtain from Miss Nixon a written statement of affairs at Alert Bay, with a view to taking some action to bring the matter before the parent body of the I. O. D. E. Mrs. Schofield spoke commending this step, voicing the opinion that the Indian problem was a problem of the Empire and as such within the scope of the I. O. D. E. A suggestion that the chapter include the Alert Bay Mission School when making donations of educational pictures was laid on the table for consideration at a later date.

Miss Gill reporting for Field Comforts Committee, announced that members had turned in twenty-five pairs of socks and one sweater. The Field Comforts Committee also received and the chapter moved a vote of thanks to Miss Gill and her co-workers for their efforts in this direction. The untiring work of Miss Sorby, who for four years had acted as convener of the Field Comforts Committee giving devoted service during the whole of that period, was the subject of a special motion, the chapter expressing its appreciation by a standing vote.

Mrs. R. B. McKelving, the report, referred to the work of the Welcome Club, on which subject the Rev. A. de B. Owen had addressed the Municipal Council, and the members voted a donation of \$10 towards this work.

Mrs. Cummins reported for the Municipal Chapter, calling the attention of the members to the proposal to move the I. O. D. E. headquarters to the foyer of the Alexandra Club.

\$100 to Scholarship Fund.
 A letter of appreciation from Principal Campbell of the Sir James Douglas School was read, the thanks of the teachers and scholars being extended to the chapter for the gift of framed photographs of the King and Queen. Mrs. Moutt gave a report of the meeting of the educational secretaries, held in connection with the annual meeting of the Provincial Chapter, and as a result of her excellent offices, the members unanimously voted a donation of \$100 to the proposed National I. O. D. E. scheme to endow scholarships for the benefit of the children of fallen soldiers.

Flag to Construction Camp.
 Reporting for the Conservation of Waste Committee, Mrs. Colin Cummins announced that the sum of \$12.40 had been raised during the past month by the sale of pins. Her suggestion that the money be used to purchase a flag to send to the men working at the P. G. E. construction camp at 93-mile House was readily endorsed by the chapter. Mrs. Cummins read a report appearing in the press to the effect that the men, the majority of whom were returned soldiers and were working under the supervision of Capt. John B. Bright formerly of Victoria, and one of the original officers of the 50th Gordon Highlanders, had hoisted a bandanna handkerchief in the absence of a proper flag.

In response to a communication from the Board of Trade requesting the chapter to send representatives to a meeting of the Retail Merchants' Association when the local Oriental situation will be discussed, Mrs. J. D. Gordon and Mrs. Hinton were appointed delegates from the chapter. Two new members were received into the chapter. During the afternoon Mrs. Dennis Harris was presented with the life membership card which accompanied the badge. The badge was presented to Mrs. Harris at the chapter's anniversary tea on March 14, but the card has only just come to hand.

CUTICURA HEALS PIMPLES
 In terrible rash on face which made skin sore and inflamed. Irritated face by scratching and was disfigured. Could not sleep well and made feel unpleasant. Trouble lasted 3 months before used Cuticura and after using 2 cakes of Soap and 1 box of Ointment was completely healed. From signed statement of Miss Gladys Neabel, R. R. 3, Brussels, Ont.

Cuticura Soap, Ointment and Talcum promote and maintain skin purity, skin comfort and skin health when used as here follows.

For free sample send Cuticura Soap, Ointment and Talcum to: Cuticura Dept., 4, Boston, U. S. A. Sold everywhere.

WILL DECIDE STAND ON "ONE BIG UNION"

Civic Employees to Adopt Attitude Toward Scheme; Salary Increases Delayed

Whether or not the employees of the city should declare themselves in favor of the "One Big Union" scheme will be discussed at a meeting of the Civic Employees Protective Association to-night. The question will be considered from all angles, and the members will be given an opportunity to express their individual views. The plan was considered before, but was laid over for further discussion.

Alleged delay in granting certain increases to a number of civic employees will be considered by the meeting. The increases in salaries granted by the Conciliation Committee recently were to be retroactive from February 1, and most of the employees have received their raises. It is stated, however, that the workers in the parks have not as yet been accorded their increases and are chafing at the delay.

DOGGED HIM.

Canvas footwear will lead the styles this summer. Complete satisfaction is assured if you wear

SMART STEP FOOTWEAR

A high-grade line of canvas footwear, including balmorals, oxfords and pumps.

Smart Step Footwear is so well made, of such excellent quality, the lasts are so comfortable, and prices so reasonable, that it would be an exceptional purchaser who could not be thoroughly suited.

Besides White, Smart Step Footwear may be obtained in Browns, Mole, Taupe, and the fashionable shades. All sizes for men, women, boys, girls and children.

Dealers all over Canada carry Canvas Shoes with the Smart Step label. Made with leather or rubber soles and heels.

Look for the Smart Step Footwear label.

EVOLUTION OF BICYCLE

Within the memory of men still living, some of them not very old men either, the bicycle was one of the wonders of the age. Far from being run to the front gate merely to see one passing. Anyone riding a bicycle down a city street, not only looked like a dare-devil adventure, but was an object of more curious attention than if he had worn a diving suit or had ventured out with a straw hat on in February. Horses "shied" at the wheeled wonder, just as they afterwards "shied" at the first autos; and newspapers chronicled a few "incidents" then—bicycle burglaries, bicycle elopements, and other things—just as they do now. Away off in some Western wilderness, Chief What-His-Name, of the Seven Smoking Tribes, voiced the sentiments of the red men in these words: "Huh! Heap lazy man! Sit down to walk?"

Development of the Bicycle.

Looking backward from the vantage point of present day, excellence in every line of mechanical invention, there were good reasons why people should stop and stare at a bicycle in those days. The very idea that a machine which wouldn't stand up alone unless propped; would run without up-setting and carry a full sized man, was fascinating in itself. And then the size and make-up of these first bicycles—those old "Ordinaries" as they were called, with a front wheel as high as the rear, a rear wheel as small as a mushroom, and a man seated astride a steel pole between the two, whirling his feet around in circles—it was really something extraordinary. Balloons, flying machines and blimps had nothing on them. The only man who couldn't really appreciate the situation was the rider, who "took a tumble" when that front wheel struck a stone—he was usually unconscious for an hour afterwards.

Then came the first "safety" bicycle—that modified, dainty little creature (by comparison only) with the front and rear wheels both the same size, a crank and chain wheel slung between, and a saddle within vaulting distance of mother earth. It was indeed a vast improvement. A few slow movements of the feet sent the creature spinning; a pressure of the hand on a brake, stopped it again—sometimes with uncomfortable suddenness; and always there was the comfortable feeling that, if the worst came to the worst—if there was an indifferent and slow moving cow on the road, or a ditch to keep out of, or a steep hill to climb—

STRENGTH FOR YOUNG MOTHERS

How Lydia E. Pinkham's Vegetable Compound Restores Health and Strength.

Lansing, Mich.—"After the birth of my child I was not able to stand on my feet. I was so weak I could not get up. I suffered such pains in my back I could not work or hardly take care of my baby. One of my neighbors recommended Lydia E. Pinkham's Vegetable Compound. I took it and used Lydia E. Pinkham's Sanative Wash, and I got better right away and was soon a new woman and could work hard, and I can recommend these remedies to other young mothers who are weak and ailing as I was."—Mrs. ORA O. BOWERS, 621 S. Homer Street, Lansing, Mich.

Women who are in Mrs. Bowers' condition should not continue to suffer from weakness and pain, but profit from her experience and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For suggestions in regard to your condition write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years' experience is at your service.

It wasn't far down to terra firma, and a man could always make it by a jump—if his legs didn't get tangled up in the mechanism.

What It Means to Boyhood.

As the writer remembers it, a boy who owned a bicycle in those days was some considerable personage in his neighborhood. Not only was he recognized as a capitalist—for a wheel then cost as much as a good horse and buggy—but he was a purely personal grounds, people from far and near courted his acquaintanceship; the reeve would stop and speak to him on the highway; the village doctor, probably anticipating new business, always approached with a smile on his face and a twinkle in his eye. In some particular respect that boy with a bicycle was favored above all men; he could go courting when other and less fortunate fellows had to stay at home. Distance was no hindrance; time counted not; storms never stayed him. It was a cruel advantage to take, but he always took it. When some chivalrous inventor built a bicycle for girls, the millennium had surely come!

A Great Health-Giver.

For the sake of those advantages and some others bicyclists were willing to endure a few discomforts. And there were a few. For instance, pneumatic tires hadn't then been invented. The first bicycle tires were of solid rubber, about three-quarters of an inch in diameter. To say that they made comfortable riding would be something of an exaggeration. Subsequently the tires were made much larger in diameter, with a sort of vacancy or layer of spongy rubber in the centre. What they gained in comfort they also gained in weight. The whole machine was indeed, a somewhat weighty proposition; the minimum was about forty pounds and the maximum would tire out a good strong team of oxen. And the saddles weren't exactly like arm chairs, except in the matter of size. It is on record that a person riding a few miles on one of them preferred to stand up for the remainder of the day—if his legs would carry him!

But gradually, as in all things else in this world, improvements and developments occurred. The solid tires became pneumatics; the old-time triangular frames became the modern "drop" or "diamond" frames, the straight spokes became tangent, the steel rims became wood, the weight was lessened, the strength increased; the saddle-made comfortable, and the price of the outfit brought within reach of everyone. In a word, the modern "safety" bicycle, of the present year of grace in the nineteenth century, had "arrived." The bicycle, a more wonderful piece of mechanism had ceased to be wondered at and had become popular. Nay more; it had become the friend and companion of man. It was found to be a means to health, wealth, and human contentment. It suited all ages and both sexes alike. It had a quietness, a dignity, a mission, and a place all its own. Those qualities will always remain with it. From the position which it holds it will never be displaced.

BE GENEROUS.

Have you heard this joyous piffle,
How the Yankees won the war?
Have you read their papers telling
What they crossed the Atlantic for?

Why! The Allies all were dreaming
Since this howling war was born,
And just recently awakened
At a blast from Sammy's horn.

Kaiser Bill was killing babies,
Shelling cities by the score,
No one there to stop the onslaught,
No one heard the wild furore.

Uncle Sam jumped into fighting,
Thirty months behind the times,
Got his soldiers all in order,
Got his banners all in line.

Slaughtered Huns by tens of thousands,
Captured half a million more,
Still the Allies lay a-dreaming,
Marshal Foch was heard to snore.

Wound the war up in a twinkling,
Set the struggling nations free,
Drove the Kaiser out of business,
From his castle on the Spree.

Do ye mind, my friend, a battle,
One dark day on Vimy Ridge?
Did ye hear the Gallipoli gun-boats roar,
With Britain on the bridge?

Did ye see the blood run red,
At Mons and Passchendaele?
Did ye see it all, my neighbor,
Were ye there to tell the tale?

Sammy dear, we know you're joking,
And you know we love you well;
Will you then just do some cheering,
For the Allies for a spell?

—Florence Bremner Carmichael.

"Can't you assume a little more pleasing expression of countenance?" asked the photographer.
"Y-yes, sir," hesitatingly answered the sitter. "Wait a minute and I'll take off these shoes."—Tit-Bits

PEACE TREATIES IN FRENCH!

The desire of the French to have the official text of the peace treaties and covenants drafted in the French language is no doubt based primarily on national pride. But there are logical grounds besides. French long ago replaced Latin as the language of diplomacy, and the medium of official intercourse between nations. As the French Academy says in its plea for this recognition, French "has been the diplomatic language for more than two centuries" and has been used in

negotiations in which France had no part. It has the further advantage of an adaptability to precise phraseology, an important consideration in international covenants. And apart from the formal aspects of the question, the choice of French would be a graceful tribute to the ally on which fell the first brunt of the effort to establish the principles for which these treaties and covenants stand. The Great Charter of England's liberties is written in Latin, that of our own in English. To have the new constitution of the world drafted in French will in-

valve no prejudice of any kind. The substance of the whole matter is in the triumph won for democracy and human rights. The only concern about the language in which its terms are expressed is that it is not German.—New York World.

THE UNUSUAL WINTER.

"I've noticed this about our winters. 'What?' 'It doesn't make any difference what kind of a winter we have, it is always an unusual one.'"

How Dominion Friction Surface Belting Helps to Increase Production

The greatest single factor in increasing and maintaining your production at the maximum is efficient equipment—this depends not only on your machinery, but to a greater extent than you realize on your power transmission equipment.

We are ready to demonstrate to you that Dominion Friction Surface Belting is the most economical and efficient transmission equipment made.

It is more than water-proofed fabric—the rubber used is a special friction compound that practically eliminates slipping and transmits all the power that any belt can transmit.

Its uniformity and dependability insure long and continuous service which saves time wasted in making replacements and repairs and prevents idle employees and machines.

Our special free advisory service, in charge of belting experts, is maintained to help manufacturers increase production through efficient equipment.

Phone, wire or write our nearest Service Branch when you are ready to have one of our experts help you "speed up" production just as they have helped many others.

SPORTING NEWS

NORTHWEST GOLF WILL ATTRACT MANY STARS

Victoria and Portland Take Lead in Championship Material

Wilson, Rithet, Martin and Goward from Victoria; Schmidt, Fovargue, Patterson and Weatherwax from Aberdeen, and a team picked from Griswold, Speir, Stein, Morrison and Stell from Jefferson Park comprise the probable leaders in the contest for the Davis cup. Spokane's best team would be Hughes, Doran, Sweeney and Ingersoll.

Reports from Spokane are that the course is in splendid condition, says "Follow Through" of The Seattle Post-Intelligencer in discussing the annual Pacific Northwest Association tournament, June 16-21 at Spokane. To preserve the green the club has been playing for a month on temporary greens. The local tournament committee is already making the necessary arrangements for the accommodation of the visitors and as it is expected that the contest will bring out a larger number of golfers than any since before the war, great pains is being exercised both in the preparation of the course and for the convenience and entertainment of the visiting golfers. Spokane's hospital is famous in golf circles and the inland city is going to make a special effort to maintain its reputation in that respect.

The tournament is the great golf event of the year for golfers of the northwestern states and British Columbia.

Comprising in the organization are the clubs of Montana, Oregon, Washington, Utah and British Columbia, although Utah has not participated in recent years.

Three events for men and one for the women constitute the main features of the tournament—the open and amateur championships and the four-men team matches for the Davis cup for the men, and the women's championship.

Seattle, which was the scene of the 1918 contest, figured largely in the finish last year: H. A. Flaeger of the Seattle Golf Club winning the amateur trophy, with Jack Ballinger of the Jefferson Park Golf Club, runner up, while Bob Johnstone, professional at the Seattle club after two tie matches was defeated by George Turnbull, of Los Angeles, for the open championship. Mrs. Geletty, of Vancouver, won the women's championship.

Two New Stars

Flaeger and Griswold are to be figured in this year's event for both are playing golf of high quality, but they will have two great golfers to meet who were not in the tournament last year, two whose names are known to golfers as possibilities even in a national tournament. Heinrich Schmidt, now a member of the Aberdeen club and Chandler Egan, of Medford, Or., have both won national fame. They are both expected at Spokane and if they enter, they are sure to finish near the top. Chandler Egan has not been in the game much of recent years, but as he has frequently shown that neither time nor lack of practice interferes much with his skill he stands with Heinie at the top of the list. Walter Fovargue, of Aberdeen, who won the open in the P. N. G. A. also enters.

It is not known what California may send, although it has been stated Jack Neville, of Del Monte, and possibly Douglas Grant, of Burlingame, may represent the South in the tournament. Neville is an ex-champion of the Northwest, but Grant, who is rated as a shade better than the Del Monte crack, has never won the honor.

Of the other cities who will have championship material, Victoria and Portland, with Hagerstaff, Wilson and Rudolph Wilhelm, respectively, take the lead. Ed Hughes, Jack Doran and Frank Sweeney, of Spokane, and Teddy Barker, of Butte, will make the championship fight, but are hardly in the class to be reckoned as finalists.

Russell Smith, of Waverly, a former champion, will not be back from last season in time to contend and Paul Ford who has been runner up and one of the premier golfers of the Seattle club, is not playing since his return, although his friends say he may still enter.

Jack Straight, of Waverly, and O. W. Potter, of the Seattle club, are also among the first sixteen of the division. In the open the most likely of the professionals are Bob Johnson, of Seattle, Joe Norak, of Spokane, and George Turnbull and Mike Brady of Los Angeles and San Francisco. These will of course have to beat such men as Egan and Schmidt, a task which will require the top of their game.

For the Davis cup Seattle, Victoria, Jefferson Park and Aberdeen seem to have the best material. Flaeger, with three picked from among Ballinger, Potter, Ford, Campbell, Blair and McKillop, will present a strong front for Seattle.

GOLFERS TO PLAY FOR FIVE THOUSAND PURSE

Chicago, May 12.—Local golfers, in behalf of Jack Hutchinson and Jim Barnes, of Chicago and St. Louis respectively, announced to-day these two will accept the offer of Alex Smith, of Wykagyl, and Gilbert Nichols, unattached, to play any two professionals in the country for a purse of \$5,000. The proposition was for thirty-six holes at Wykagyl and thirty-six holes at a course to be named, and the probability is that the latter will be the Glenview, Hutchinson's club, or Sunset Hills, where Barnes is professional.

STRANGLER LEWIS IS DEMPSEY'S PARTNER

Chicago, May 14.—Jack Dempsey, heavyweight, matched to fight Jess Willard for the championship, resumed his journey to-day by automobile to Toledo, where the contest is to take place July 1.

Dempsey had been at Excelsior Springs, Mo., for more than a week and ran over here, to rest a couple of days.

While here Dempsey engaged Strangler Lewis, the wrestler, as one of his training partners. Lewis is to leave here for Toledo soon after his match with Zbyzsko here Monday night.

DOMINION TIRES are GOOD Tires

DOMINION TIRES have proved their quality, their easy comfort and their freedom from ordinary tire troubles, on every automobile road in the Dominion.

DOMINION TIRES give you a choice of six distinct treads:

"ROYAL CORD"
"DOMINION"

"NOBBY"
"GROOVED"

"CHAIN"
"PLAIN"

with the right Inner Tube to give you a perfectly balanced tire. DOMINION INNER TUBES are built with the same care as DOMINION TIRES, yet cost no more than ordinary tubes.

DOMINION TIRES and ACCESSORIES are distributed through DOMINION RUBBER SYSTEM BRANCHES and sold by the Best Dealers throughout Canada.

COLWOOD TEAM WINS INTER-CLUB GOLF

Beat Oak Bay Ladies By Narrow Margin of Two Points

Ladies of the Colwood Club were successful in the first of the inter-city club games yesterday with Oak Bay Club for the trophy donated by the president of the Colwood Club, J. A. Sayward. The cup has to be won three times in succession to become the property of any one club. Yesterday's match was won by the narrow margin of two points, the Colwood players making ten points, and the Oak Bay representatives, eight. The return game will probably be played in the fall over the Oak Bay course, and the inter-club series promises to create a great deal of interest and friendly rivalry between the two clubs.

Second race, claiming purse, \$1,000, four-year-olds and upward, six furlongs—Port Light won, Blue Paradise second, Squealer third. Time, 1:13 1-5.

Third race, purse \$1,000, two-year-olds, four and a half furlongs—Miss Parnell won, Director James second, Zisis third. Time not given.

Fourth race, Watterson Hotel Handicap, purse \$2,000, three-year-olds and upward, mile and a sixteenth—Courtship won, Omrod second, Viva America third. Time, 1:44 4-5.

Fifth race, purse \$1,200, two-year-olds and upward, four and a half furlongs—Pyx won, Chica second, Move On third. Time, 54 1-5.

Sixth race, claiming purse \$1,000, three-year-olds and upward, mile and a furlong—Fair Orient won, Parr second, Sungold third. Time, 1:52 2-5.

Seventh race, claiming purse \$1,000, three-year-olds and upward, mile and a sixteenth—Hockner won, Wiseman second, Sands of Pleasure third. Time, 1:48.

PIGEONS

In Flight and Fancy

The Victoria Racing Pigeon Club held their race from Portland, Oregon, Saturday, May 10. The birds were liberated at 10 a. m., the first bird arriving home at 2:54 p. m., covering the distance in four hours and fifty-four minutes. The result was:

Yards per Minute.
1. W. Simpson 1,224
2. D. Dougan 1,218
3. J. Wicks 1,215
4. F. Bosson 1,212
5. W. Bryan 1,201
6. J. W. Hland 1,194
7. J. Webber 1,194
8. F. Smith 1,192
9. F. Mellor 1,191
Next Saturday's race from Soledad, Ore., an air line of 250 miles, will be held.

WHITEWASH ALL PROS. SAYS ROBINSON NOW

Calgary, May 13.—Claude Robinson, father of the Winnipeg Victorias and western representative of the Allan Cup, who is in Calgary, is in favor of a clean whitewash of all professionals in Canada. He maintains that these pros should be given three weeks in which to apply for reinstatement and each individual case passed upon. "Then do away with further reinstatement," says Mr. Robinson. For many years Mr. Robinson has been bitterly opposed to whitewashing professionals and up to a week or two ago he believed in "once a professional always a professional." He has changed his opinion, as he has seen for himself amateur conditions that have been existing in the West.

Montreal, May 13.—Although Irish Patsy Cline outclassed Phil Bloom, of New York, in their ten-round bout here last night, he was unable to put him away and the New Yorker stayed the limit.

LUXATED IRON MASTER STRENGTH BUILDER OF THE BLOOD

Power Behind the Strong
Hardy Men and Healthy
Beautiful Women of Today

To make strong, lean, red-blooded Americans there is nothing so valuable as organic iron—LUXATED IRON—says Dr. James Francis Sullivan, formerly Physician at Bellevue Hospital (New York) and the Western County Hospital, Montreal. Luxated Iron builds the blood and creates new blood strengthens the nerves, rebuilds weakened tissues and helps to instill vigor and endurance into the system. It often increases the weight of weak, delicate people in weeks' time. It is estimated that 2,000,000 people use Luxated Iron daily as a tonic and blood-builder.

MAKE THIS TEST YOURSELF And Find Out Where Your Blood Stands

See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Luxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form.

Manufactured from purest iron and purified by electrolysis in a secret process, but one which is well known to the scientific world. Unlike the other iron salts, Luxated Iron is easily assimilated, does not irritate the stomach, and does not upset the stomach. The manufacturer guarantees successful results and will refund your money. This is guaranteed by all good druggists.

FIFTY-EIGHTH WANTS BATTLE HONORS

Victoria Fusiliers Regimental Association Formed
to Promote Social Work

Requests that the Military Council battle honors to the 58th Regiment for the part it played in the relief of the 7th Battalion, are to be by the newly formed 58th Victoria Fusiliers Regimental Association, which has sent 3,000 officers and men to various battalions in the field, and through the fact that the association has been able to cross the sea itself, it does not share any honors. The association was formed in Belmont House last night, and largely attended. Colonel John who took over the 58th Battalion, presided and urged that all officers and men who had belonged to the 58th Victoria Fusiliers of the 58th Overseas Battalion should be the new association, which would help of a social nature, and after the interests of all former members. The officers announced that the association had not been formed on antagonistic basis to any other organization. The members did not view with ill-will the announced proposal of the Military Council to substitute the 58th Battalion, an active service unit, the 58th Regiment, which while being a battalion overseas, did not get the good fortune to go to France. The association of the 58th was led to by a number of speakers, listing in the passing of a resolution asking the Military Council to battle honors to the regiment. There is every indication that the

Women's Struggle For Good Health Quickly Rewarded

SIMPLE HOME TREATMENT
ADVOCATED THAT GIVES
FINE RESULTS

When a woman's face grows haggard and pale, when she is tired all day and ready to cry when night comes, when she knows something is wrong, when she feels only makes matters worse. The best advice we can give a sickly woman is to test out the new treatment. Take the close of every meal, with a glass of water, take two chocolate-coated Ferrozone Tablets. This is the best thing going for a woman who is tired out, run down and needs a strengthening, building, medicine. Ferrozone's action aids the three principal functions of the body—digestion, assimilation, elimination. By strengthening digestion it forms abundance of rich, red blood—this gives good color. By perfecting assimilation, Ferrozone supplies nutrition—this gives strength, vim and stability. Elimination is assured because Ferrozone quickens the action of the liver, kidneys and bowels—this guarantees maintenance of vigorous health. Ferrozone puts you on the right road to the one that leads to health.

For a man, woman or child needing food, vigor, endurance—not a person who is weak, nervous or sickly, not a person in ill-health who won't receive immediate help from Ferrozone. It is a tonic and restorative, as a health-bringer and body-builder, Ferrozone is unrivalled. It cures because it feeds and nourishes, because it cleanses the elements that build up and strengthen. Try it yourself—sold everywhere in 50 cent boxes, 6 boxes \$2.50, or by mail from The Ferrozone Co., Kingston, Ont.

SOME CHEQUES ARE NOW BEING RECEIVED

Civil Servants Get Payments on
Account of Regrading and
Readjustment Scheme

Though the Civil Servants have not yet been classified, the Provincial Government, which decided at its last session to establish a system of bonusing on a re-classification basis, has already begun paying what might be termed advances on account of the readjustment. Some of the employees, however, who have already received cheques, are protesting because they are not larger.

Civil Service Commissioner MacInnes has the matter of readjustment and payment of bonuses in hand, and he explains that the cheques now being issued are not really bonuses, but are payments on account to those who are entitled to an increase in salary. If, when the work is completed, it is found that some have been paid these cheques, who do not prove entitled to an increase they will be allowed to keep what they have already received.

Mr. MacInnes says that some of the employees are already drawing within a few dollars of what the new scale will warrant paying them, namely the higher-paid employees. Some employees who on regrading will be entitled to as high as \$30 or \$35 are receiving their advances at once. Others on regrading will find that they are only entitled to a dollar or two.

Generally speaking, the bonuses now being given are confined to civil servants receiving \$125 a month or less. To married servants the bonus is \$10 per month with, in special cases, a larger amount. To unmarried civil servants the general amount is \$5 per month. A general advance of \$5 a month is being granted to stenographers. To civil servants who joined the service within the past six months and whose grade was fixed by the Civil Service Commissioner at once, and salaries therefore decided upon, no bonuses are being given.

Recently the Civil Service Association asked for a twenty-five per cent increase pending the re-grading of the staff, the plan for the increase being the high cost of living.

The WEATHER
Daily Bulletin Published
by the Victoria Meteorological Department

Victoria, May 14.—5 a. m.—The barometer continues to fall along the Coast in advance of unsettled, showery weather, which may be more general. Frosts are reported in Alberta and rain in Manitoba.

INDIAN MISSIONARY TO ADDRESS WOMEN

Miss Margaret Russell, of Bombay, to Address Columbia W. A. Annual Meeting

Miss Margaret Russell, a missionary educationist of Bombay, India, is to be one of the chief speakers at the annual meeting of the Women's Auxiliary of the Columbia Diocese, which will open at Christ Church Cathedral tomorrow. Miss Russell has been on mission work in India for the past 13 years, and to give the women an opportunity to hear of her experiences a special place has been made for her in the programme and she spoke at the noon hour.

The complete programme is as follows:

Thursday, May 15.
10 a.m.—Holy Communion, Christ Church Cathedral. Celebrant, the Lord Bishop of the Diocese. Sermon by Rev. F. L. Stevenson.

11.45 a.m.—Christ Church school-room. Roll call. Minutes of the last annual meeting to visiting delegates, Miss Aston; reply, Mrs. Skinner. Announcements, greetings, reports of diocesan officers.

12 p.m.—Miss Margaret Russell on "The Need of the Women of India."

2.15 p.m.—President's address. Address by the Lord Bishop of the diocese. Reports of diocesan officers, continue. Statements of appeals accepted by the Dominion Board for 1918. Statement of balances to be voted on. Address by Miss Nixon, Alert Bay.

8 p.m.—Christ Church schoolroom. Conference on social service; chairman, the Bishop. Address, Mrs. Spofford, "Our New Citizenship." Address, Rural Dean Connell, "Public Health—the Church's Obligation."

Friday.

10 a.m.—Minutes of previous day; general report of city branches. Address, A. R. Morris, "The Church's Forward Movement." Reports of out-of-town branches.

12 noon—Devotional address, the Dean; collection for appeals; announcements; correspondence.

2.15 p.m.—Methods in parochial branches with discussion led by Mrs. Bishop. Voting on balances of various funds. The pledge for next year; question box; resolutions; unfinished business; result of election of diocesan officers. Concluding address, the Bishop of the diocese.

ENTHUSIASTIC OVER NEW ASSOCIATION

"Western Scots" to Promote
Their Spirit of Fellowship;
Splendid Smoking Concert

With an enthusiasm and spirit of friendship which augurs well for success, the 67th Battalion, Western Scots Association, was formed last evening at a meeting held in the Commodore of the Great War clubrooms. About 150 officers and men from the famous battalion were present and displayed great eagerness in having the association formed immediately. Consequently a constitution and by-laws were approved of and various other business matters dispensed with.

Following the business the veterans took the proceedings easily and participated in a very enjoyable smoking concert. Major Christie, who presided, made a very brief address before commencing the programme. He stated that Lieut. Col. Lorne Ross, D. S. O., commanding officer of the unit, was unable to attend owing to urgent business in Vancouver. Major Christie gave a short outline of the war record of the "Western Scots," from the time the first man was signed on in Victoria until through reorganization of the Canadian Corps in France, it was necessary to split up the battalion to reinforce the 54th and 102nd Battalions.

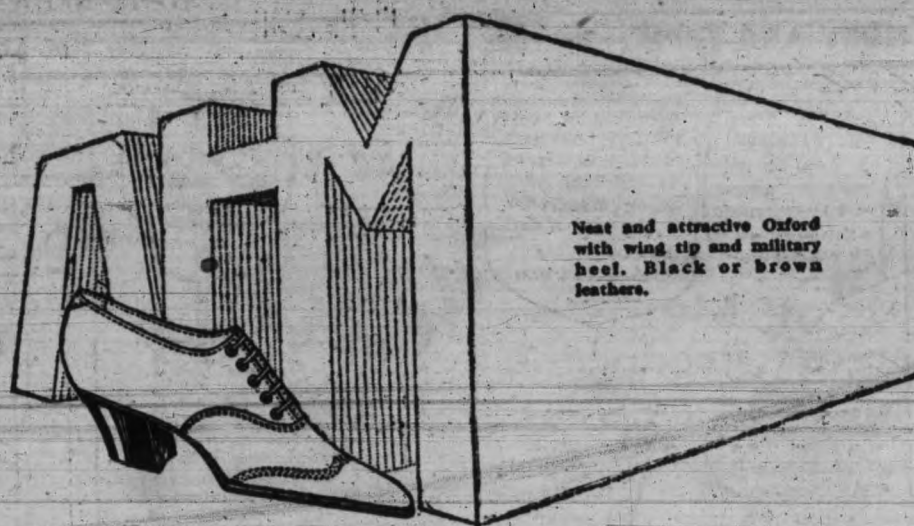

Major Christie recalled the wonderful spirit of fellowship which had existed amongst the men in the 67th Battalion and hoped that the boys would develop this spirit in their civilian activities and also keep it alive in the association which had been formed.

It was unanimously decided to hold monthly meetings, which after the transacting of minor business, would develop into social gatherings. This will provide excellent opportunities for the fostering of the spirit of fellowship.

The programme at the concert last evening which was lengthy, varied and exceptionally good, was as follows:

Bagpipe selection, Pipe-Maj. Wishart, 67th Batt.; trench song, led by Sidney Rogers, 47th Batt.; song, "On the Road to Mandalay," Lieut. R. R. Webb, 30th Field Ambulance; comic song, Tom Dooley; song, J. Dobie, 67th Batt.; sleight of hand, Wilfrid Machin; monologue and song, "Paddy McGinty's Goat," Dick Lee, C. A. M. C.; moving pictures, through the courtesy of the Y. M. C. A., operated by J. W. Smith, 67th Batt.; remarks by Rev. (Capt.) Campbell, chaplain to the Forces; song, "Friend of Mine," Lieut. R. R. Webb; monologue, "The New Recruit," Dick Lee and Dick King; comic song, F. J. H. Sargent, 67th Batt.; cornet solo, "Somewhere a Voice is Calling," Sidney Rogers; reading, Capt. I. St. Clair; song, E. F. Nicholls, 67th Batt.; P. Fletcher, 11th Field Ambulance, officiated as accompanist.

The committee which arranged the affair desires to thank the following, who assisted in making the event a success: Miss Ella, clears; refreshments, Mrs. Elliott and the Silver

What the Dealer Means to You

THE shoe dealer does more for you than you perhaps realize. He not only carries a variety of styles and sizes for your convenience, right in your town, but he renders you a service which no one else can render in the correct fitting of your foot.

This is very important, not only for the sake of comfort, but also because the appearance and the life of your shoes depend upon correctness of fit. No matter what price you may pay for a shoe, it cannot give you its full service if it does not fit your foot.

And more than that: ill-fitting shoes often cause foot troubles, even though they may feel perfectly comfortable at first. Correct fitting shoes are essential, even if it means extra time and effort for you to get them.

So you should go to a dealer in whom you have confidence, let him advise you as to the type of shoe which is suited to your foot, and give him time to fit you correctly. You will get better service from your shoes if you will do this, and they will look better.

Write for our booklet "How to Buy Shoes" which gives more information on this important subject. It is sent gladly to any address in Canada upon request to our head office at Montreal.

FIRST POWER UNITS ARE DELIVERED HERE

Propelling Machinery Landed
at Ogden Point This Morn-
ing From Everett

IMMEDIATE START IN OUTFITTING FRENCH SHIPS

First Vessel Will Be Ready to
Undergo Trials Early in
June

Heralding a period of strenuous activity at Ogden Point the first unit of marine engines to be delivered in connection with the French contract have arrived at the Outer Harbor outfitting plant shortly before noon to-day from Seattle.

The propelling machinery delivered here to-day was built by the Sumner Iron Works at Everett, which concern has a contract to deliver several units of engines for the initial ship being turned out at this port by the Foundation Company of B. C. Ltd. The material was delivered at Ogden Point by the Victoria Tug Company.

The machinery for each ship consists of two 550-horsepower, vertical, inverted, direct acting, three crank, triple-expansion marine engines, each of which will develop not less than 550 indicated horsepower when working under full boiler pressure. Steam will be supplied by two Scotch boilers with a heating surface of about 1,500 square feet, built for a steam working pressure of 225 pounds to the square inch. Delivery of the first consignment by the Vulcan Iron Works, of Vancouver, is expected by the beginning of next week.

From this time forward the Ogden Point plant will hum with activity. The installation of engines will be at once proceeded with on Hull 301 and it is predicted that this vessel will be ready for her trials by the beginning of next month.

GOVERNOR SAILING

ON NEW SCHEDULE

Admiral Liner, With Full List,
to Clear Saturday Morning
For San Francisco

With the sailing of the steamship Governor this week the Pacific Steamship Company will inaugurate a new schedule to California ports.

The Governor will sail from Seattle at 11 p. m. on Friday and will leave Victoria at 8 a. m. on Saturday, arriving at San Francisco at 2 a. m. on Monday. This schedule, in the future, will be maintained by the steamship President and Governor. Hitherto these ships have been leaving Seattle at 11 a. m. and Victoria at 5 p. m. on Friday, arriving at San Francisco Sunday night.

The Governor and President will eliminate the call at San Diego, going only as far south as Wilmington.

Reason for Change.

Relative to the new service, E. G. McMillen, general passenger agent of the Admiral Line, says:

"The change in the schedule and service of the Governor and President is due to the heavy freight traffic which, under the present schedule, hardly provides time enough for the loading and discharging of these vessels at San Francisco and Seattle."

"The San Diego service will be taken care of by the steamships Admiral Farragut, Admiral Dewey, Admiral Schley and the Queen, with an occasional call at that port by the steamship Spokane."

"Passenger travel along the coast is quite heavy and is showing an inclination to increase right along, and it is our aim to furnish the best accommodation possible."

"By withdrawing the Governor and President from the San Diego call, we do not hamper the service there to any extent, since the new schedule provides for three vessels a week to that port without the larger ships, and this provides an extra day at San Francisco for each of the big liners, thus affording the opportunity of caring for all freight offerings."

YOSHIDA MARU OUT.

The Japanese freighter, Yoshida Maru, passed out to sea this morning bound from Vancouver to the Orient.

GOVERNOR SAILING

ON NEW SCHEDULE

Admiral Liner, With Full List,
to Clear Saturday Morning
For San Francisco

With the sailing of the steamship Governor this week the Pacific Steamship Company will inaugurate a new schedule to California ports.

The Governor will sail from Seattle at 11 p. m. on Friday and will leave Victoria at 8 a. m. on Saturday, arriving at San Francisco at 2 a. m. on Monday.

This schedule, in the future, will be maintained by the steamship President and Governor. Hitherto these ships have been leaving Seattle at 11 a. m. and Victoria at 5 p. m. on Friday, arriving at San Francisco Sunday night.

The Governor and President will eliminate the call at San Diego, going only as far south as Wilmington.

Reason for Change.

Relative to the new service, E. G. McMillen, general passenger agent of the Admiral Line, says:

"The change in the schedule and service of the Governor and President is due to the heavy freight traffic which, under the present schedule, hardly provides time enough for the loading and discharging of these vessels at San Francisco and Seattle."

"The San Diego service will be taken care of by the steamships Admiral Farragut, Admiral Dewey, Admiral Schley and the Queen, with an occasional call at that port by the steamship Spokane."

"Passenger travel along the coast is quite heavy and is showing an inclination to increase right along, and it is our aim to furnish the best accommodation possible."

"By withdrawing the Governor and President from the San Diego call, we do not hamper the service there to any extent, since the new schedule provides for three vessels a week to that port without the larger ships, and this provides an extra day at San Francisco for each of the big liners, thus affording the opportunity of caring for all freight offerings."

YOSHIDA MARU OUT.

The Japanese freighter, Yoshida Maru, passed out to sea this morning bound from Vancouver to the Orient.

DUE WITH TROOPS MAY 24

R.M.S. EMPRESS OF JAPAN

SHIPS OF LARGER TONNAGE NEEDED

Atlantic and Pacific Coasts Will
Benefit By Future Govern-
ment Orders

All future Government contracts for

steel ships will be awarded to yards on

the Atlantic and Pacific coasts, it was

semi-officially learned to-day. The

announcement by Hon. C. C. Ballan-

tyne that the steel shipbuilding policy

would be continued has been received

with a great deal of satisfaction by

shipbuilders on both coasts.

The orders placed to date by the

Government for steel vessels, ranging from

10,500-ton ships to craft of about 3,000

tons built on the Great Lakes.

Under the future policy of the Govern-

ment no more vessels will be built

on the Great Lakes, it is said, as boats

of larger tonnage than can be taken

through the locks are required in

future.

This means that the shipbuilding

firms on the Great Lakes will be hard

hit by the decision of the Government

to build ships of larger tonnage.

The firms on the lakes at present

building ships for the Government are:

Collingwood Shipbuilding Co., Colling-

wood, Port Arthur Shipbuilding Co.,

Kingston Shipbuilding Co., and the

Domestic Shipbuilding Co.

Four ships under the Government

programs have been launched to date,

two by Canadian Vickers—one of 3,100

tons and one of 4,800 tons—one of 3,750

tons by the Collingwood Shipbuilding

Co., and one of 4,300 tons by the Wal-

lace company at Vancouver.

Future contracts, it is said, will be

for vessels of 3,100 tons, and only

Pacific and Atlantic yards are able to

handle craft of this size.

It is semi-officially stated that a fair

share of contracts will be placed with

both Atlantic and Pacific builders

when the Government plans materialize.

RED CROSS TO MOVE ITS HEADQUARTERS

To Strathcona Hotel; B.C. Telephone Co. Takes Over Temple Building

On that momentous day in 1914, when rumors of war had crystallized themselves into a definite announcement of hostilities, plans were inaugurated for the establishment in Victoria of a branch of the Red Cross Society. That same day saw the generous offer of two leading citizens, Capt. Logan and Harry F. Bullen, in placing at the disposal of the Red Cross the commodious premises at the Temple Building as headquarters for the local work. For four years and nine months the Victoria and District branch of the Red Cross has enjoyed the use of these quarters absolutely rent-free, and its tenure will come to a close at the end of the present week, when the headquarters will be removed to the Strathcona Hotel. Through the kindness of the hotel management a commodious store and office has been placed at the disposal of the Red Cross, free of charge, and workers are particularly requested to make a note of the pending change. The removal of the headquarters will mark the close of an era of extraordinary activity for, in the minds of the people of Victoria, the name of the Red Cross will always be associated with the Temple Building. Many thousands of supplies have passed through its doors and many workers have spent countless hours under its roof preparing that constant stream of bandages and garments which meant so much to the men in field and hospital. Although the necessity for sending goods overseas has now ceased there is still a great demand for effort on behalf of the local military hospitals, and there will be no cessation of work at the new headquarters.

It is the intention of the B. C. Telephone Company, after the premises are vacated by the Red Cross, to move the commercial offices from the Telephone Exchange on Blanshard Street, to the Temple Building. Notice of the date of the removal will be given later.

Testotaller—Stay, my friend! Do you think that glass of yile slith will quench your thirst? The Festive A. H. (reverently) Good evening, mate! I jolly well 'ope not!—Fanning Show.

WILL SYSTEMATIZE SEED CULTIVATION

Announcement Is Made of Central Cleaning Plant and Trial Grounds

It is the intention of the Dominion and Provincial Governments to establish a central cleaning plant for British Columbia grown seeds, and a trial ground for testing out the seeds grown, such organization to be managed co-operatively, with the necessary official subsidy to place the plan on a working basis. This is the statement of A. McMeans, of Brantford, the expert of the Federal Government who has assisted in the organization of the growers in this province since commercial seed growing was inaugurated.

Mr. McMeans was in the city yesterday with Professor P. A. Boving, of the University staff, making arrangements for the work in the 1919 season. Describing the plan outlined above, Mr. McMeans states that the cleaning will be supplementary to the cleaning now conducted by the growers, and the trial grounds will assure guaranteed seed from this province. "If we have complaints," he said, "from any part of the world thereafter of the germination of seed, we can place the seed absolutely from experience, and know whether the fault lies here, or with the method of cultivation."

Five Year Test. "It is assumed," Mr. McMeans stated, "that it will take five years to put an organization of this character on its feet commercially, and for that purpose the Governments will back the plan during that period named. It will have to be placed in charge of a competent official, and the results will justify themselves in the season following the growth of the seeds, for there is necessarily that interval in the passing of the seeds through the usual channels to the consumer for distribution and raising another season's crop."

Mr. McMeans states that the bonus system adopted by the Government will cease this year, it having been adopted to stimulate production during war time. He thinks the business in the Province is now sufficiently on its feet to be stable. He reports a good demand for British Columbia flower seeds as well as for vegetable seeds, although the industry is still in its infancy.

Go to Comox Valley. The plan of the campaign this year will include a thorough canvass of the growers on the island, and in the Okanagan and Fraser Valley districts. For this purpose Mr. McMeans leaves for Courtenay, with a view to investigate the possibilities of the Comox Valley for commercial cabbage seed cultivation. He is satisfied already of the climatic qualities of the land, and he now goes to investigate the soil and insect conditions there. Testimony to the success of the British Columbia grown seeds has reached the organizers from various parts of the continent, although the movement is still new. No estimate of probable acreage this year will be forthcoming until the tour of the seed-growing districts has been carried out, on the lines indicated above.

Keep Your Citizen Soldiers

The returned men, a fine human asset. This point is well adressed by The Belleville Intelligencer when it says:

"Good citizens are as pearls above price, and to lose even one is a calamity not to be taken lightly, or without regret. Canadian soldiers who served overseas have had their outlook upon life immeasurably broadened and meliorated by the

strenuous discipline of military life and the ennobling influences of the daily sacrifices and splendid brotherhood of the trenches. These men, encouraged and appreciated, will make the best of citizens and valuable assets to any community.

Among the recently returned officers of the C. E. F. is Capt. Dan Cameron, who saw active service in the most strenuous phases on the battlefields of France, and for distinguished service in the war was awarded the Military Cross. Capt. Cameron before responding to the call of his country was one of the most popular citizens of Belleville and his musical talent so

freely given at all times for the benefit of the public was always appreciated. His reception upon his return shows that he has lost none of his popularity; rather has it increased. The feeling of the citizens of Belleville is embodied in the universal desire that Capt. Cameron resume his accustomed place in the life of the

community and give the benefit of his experiences overseas to the upbuilding of a better citizenship founded upon those high ideals which carried Canadian soldiers through the hell of a Hun-made war with a smile on their faces, a song on their lips and the helping hand ever ready to serve a comrade.
